

# WHEN IT RAINS, IT DRAINS. AND IT HAS TO GO SOMEWHERE

Water from inside our homes goes to a wastewater facility for purification. But water from roofs, streets, and outdoor spigots goes untreated directly into storm drains – straight to our waterways – picking up all kinds of contaminants along the way!

## DID YOU KNOW

Excess nutrients, specifically nitrogen and phosphorus, pollute stormwater run-off from urban areas, contributing to the third greatest cause of lake deterioration in the US.

## DID YOU KNOW

The amount of phosphorus in grass clippings from mowing your lawn just once can produce up to 100 lbs. of unwanted algae if it ends up in our lakes and ponds.

## DID YOU KNOW

Just one pound of fertilizer over-application on the average lawn can equate to 3-4 lbs. of excess algae growth in streams and lakes.

## DID YOU KNOW

Leaf "litter" and landscape trash accounts for 56% of phosphorus in urban stormwater, not to mention clogging and increasing debris in our waterways.

## DID YOU KNOW

When you wash your car in the driveway, you're washing about 120 gallons of grime-filled water downstream. The soap, together with the dirt, grease and grime flows untreated into nearby storm drains, which runs directly into lakes and streams.

## DID YOU KNOW

If dog owners don't clean up after their pooches, 390 million pounds of poop can wash into our waterways every year just in Colorado! Dog waste contains 10% phosphates and 2% nitrates, contributing to algae growth.

## WHY IT MATTERS

Algae looks bad, smells bad, degrades water quality and can be harmful to your health.

As algae decays, it uses up oxygen in the water, leading to a decline in our drinking water quality – and makes it more expensive to treat.

Too many nutrients in streams and lakes cause rapid growth of algae.

## WHAT YOU CAN DO

### Dispose Properly

- Compost or bag your leaves and lawn clippings
- Don't blow leaves or lawn clippings into the street
- Sweep up any spills or overspray of fertilizers on sidewalks or streets

### Be Car Smart

- Use a commercial car wash, where water is recycled and sent to treatment facilities
- Wash your car on the lawn or gravel
- Dump your soapy bucket in the sink

### Fertilize Efficiently

- Always follow the manufacturer's application recommendations. More isn't better!
- Fertilizing in the early fall promotes healthy root systems – leading to stronger, more resilient lawns and plants

### Pick It Up & Pitch It

- Clean up dog waste and dispose properly

# Summit County Stormwater Management Manual

**JE Gale**

## **Summit County Stormwater Management Manual:**

**State Highway 9, Frisco to Breckenridge, Summit County ,2004**      *Pollutant Load Reductions for Total Maximum Daily Loads for Highways* Shahid A. Abbasi,Antti Koskelo,2013 The intent of this synthesis is to collect information on the types of best management practices BMPs currently being used by state departments of transportation DOTs for meeting total maximum daily load TMDL water quality goals for stormwater runoff The study approach includes two major components interviews with 12 state DOTs to identify the existing state of the practice as it relates to TMDL implementation and a review of selected literature sources based on the criteria of highways TMDLs BMP performance and BMP cost to stay consistent with the goals of this synthesis In particular detailed quantitative BMP performance and cost data including life cycle costs are presented which builds significantly on previous studies of this nature The impetus for this study was to help fill in a significant information gap on what types of BMPs are cost effective for specific use in linear highway applications for TMDL implementation purposes Even with the advent of new low impact development green infrastructure practices there remain a lack of effective BMP technologies and nonstructural controls e g source control and water quality credit trading for DOTs to implement for National Pollutant Discharge Elimination System permit compliance This problem will only grow larger as new TMDLs are continually being developed and many DOTs are unprepared both technically and economically to cope with the additional requirements some states already have 60 TMDLs in which they are a named stakeholder In an effort to help state DOTs with TMDL implementation a simple user friendly BMP matrix toolbox with quantitative performance and where available life cycle cost data for various structural and nonstructural BMPs is presented Some of the more common TMDL pollutants of concern sediment nutrients fecal coliform and metals are focused to maximize applicability for state DOTs The performance and cost data were derived from numerous literature sources including the International Stormwater BMP Database which currently consists of more than 400 studies This study is designed to help promote information exchange and technology transfer among DOTs for the mutual benefit of all highway managers faced with TMDL implementation Conclusions from this synthesis are briefly highlighted here by general topic area with more details provided in chapters four and five Performance for structural BMPs varied by pollutant and BMP type however certain trends did emerge from the literature review In general total suspended solids TSS appear to be relatively easy to treat with a broad range of BMPs including infiltration basins sand filters and bioretention Nutrients especially total nitrogen can be more challenging to remove nonetheless some BMPs e g Austin sand filters for total nitrogen and infiltration basins for total phosphorus showed some promise Fecal coliform data were limited however several BMPs were documented as being effective including infiltration basins and infiltration trenches among others Additional BMP performance data from the International Stormwater BMP Database support the view that media filters and retention ponds are consistently effective for a wide variety of TMDL pollutants including TSS nutrients fecal coliform and total metals This conclusion is based on

statistics that show that median concentrations of these pollutants were statistically lower in effluent concentrations compared with influent concentrations based on a large number of studies from around the country although not all highway related Overall while these BMPs may be generally effective across a range of environmental conditions obtaining local site specific BMP monitoring data would be preferable for developing individual state DOT TMDL programs Performance data are also presented for nonstructural practices such as street sweeping catch basin cleaning and tree planting Quantitative performance data are generally lacking in the literature for these types of BMPs The limited information found suggests that street sweeping and catch basin cleaning may potentially be effective strategies for reducing TSS nutrients and metals provided they are performed frequently enough and the right technology is used in the case of sweeping Tree planting and stream restoration were documented as having some water quality benefits for nutrients Notably anti icing management has been successfully demonstrated in New Hampshire where a 20% reduction in chlorides was achieved by upgrading the technology on snow plows in response to a chloride TMDL In addition to performance life cycle cost data are presented where available However the cost information could not be adequately synthesized owing to differences in cost estimating approaches reporting units variability in costs among states and regions and inconsistencies in BMP naming conventions This also prevented a true cost benefit analysis However numerous sources of life cycle cost data as well as sources for individual cost elements such as design construction and operation and maintenance are provided where the interested reader may obtain more detailed information Given the differences in cost from one region to another the reader is encouraged to obtain cost data that are most relevant to their state Hyperlinks are provided in the BMP matrix toolbox where one may access examples of reports with detailed life cycle cost data and numerous additional cost sources are cited throughout the section on Highway Best Management Practices in chapter three There appear to be several common elements to developing an effective TMDL implementation program all of which have the potential to benefit DOTs by helping them receive a more equitable waste load allocation and developing a more manageable TMDL program The key elements are listed here although not all may apply to every DOT Increase awareness and training within the DOT on TMDL issues especially in cases where the DOT is named a stakeholder in only a few TMDLs or none Develop off site watershed partnerships and collaborate with other stakeholders to ensure cost effective approaches based on economies of scale and to promote information sharing and technology transfer among stakeholders Collaborate with the state regulatory agency during the TMDL development process especially early in the process Estimate pollutant loads generated within the DOT right of way either through water quality monitoring or modeling and predict potential load reductions from various BMP implementation scenarios Although some DOTs had relatively successful TMDL programs others clearly faced a number of challenges The primary challenges were limited financial resources a lack of effective BMP technologies for linear highway applications and difficulties in navigating complex regulatory environments where TMDL related requirements were either inconsistently enforced or restricted the

flexibility of the DOT in implementing BMPs of their choice Further research is suggested on the following topics long term adverse environmental and cultural aspects of BMP implementation new and innovative BMP technologies suitable for the highway environment more studies on BMP longevity life cycle costs and maintenance costs and standards and alternative and creative solutions to addressing emerging TMDLs for less traditional pollutants such as biological integrity sediment toxicity and organic compounds e g vehicle source control water quality trading Pages 1 2

**Selected Water Resources Abstracts** ,1990      **Monthly Catalog of United States Government Publications** ,1976      *Urban Stormwater Management Manual for Malaysia: Regulatory criteria and requirement* ,2000      Urban Stormwater Management Manual for Malaysia: Introduction to the manual ,2000      *Geomorphology and Land Management in a Changing Environment* Duncan F. M. McGregor,Donald A. Thompson,1995-06-20 *Geomorphology and Land Management in a Changing Environment* Edited by Duncan F M McGregor and Donald A Thompson Royal Holloway University of London UK *Geomorphology and Land Management in a Changing Environment* highlights the practical application of geography to environmental management through examination of the ways in which geomorphology is relevant to and contributes to proper management of land resources Increasingly effective land use is seen as dependent on the integration of geomorphological principles and practice within the decision making process The book elucidates the environmental effects of land management practices in terms of the geomorphological systems in which they take place and in the context of an environment subject to uncertainty and change It critically reviews the progress of applied geomorphology in addressing the issues of practical applicability of geomorphology and then focuses on four major themes within this interaction ground instability and land management the effect of land use on the hydrological and erosional response of geomorphological systems modelling geomorphological response to environmental change and geomorphological aspects of the management of environmental risk By integrating a wide range of case studies from the developed and the developing world the book offers a distinctive insight into the range and utility of geomorphological research and pointers for environmental planners and decision makers at all levels

### **Summit County Stormwater Management Manual Introduction**

Summit County Stormwater Management Manual Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Summit County Stormwater Management Manual Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Summit County Stormwater Management Manual : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Summit County Stormwater Management Manual : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Summit County Stormwater Management Manual Offers a diverse range of free eBooks across various genres. Summit County Stormwater Management Manual Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Summit County Stormwater Management Manual Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Summit County Stormwater Management Manual, especially related to Summit County Stormwater Management Manual, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Summit County Stormwater Management Manual, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Summit County Stormwater Management Manual books or magazines might include. Look for these in online stores or libraries. Remember that while Summit County Stormwater Management Manual, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Summit County Stormwater Management Manual eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Summit County Stormwater Management Manual full book , it can give you a taste of the authors writing style. Subscription Services

Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Summit County Stormwater Management Manual eBooks, including some popular titles.

## **FAQs About Summit County Stormwater Management Manual Books**

**What is a Summit County Stormwater Management Manual PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Summit County Stormwater Management Manual PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Summit County Stormwater Management Manual PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Summit County Stormwater Management Manual PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Summit County Stormwater Management Manual PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
