

### Special instructions for making kneaded breads

When making kneaded breads, your mixer will require more care than when making ordinary mixtures, such as cake batter and cookie dough. The elasticity of the bread dough and the shape of the dough hooks may cause your mixer to do some unusual things.

The mixer head may rock up and down. Don't be alarmed. This action is normal. **Do not attempt to hold the mixer head down, as this may interfere with the kneading action.** The bowl may tend to rock back and forth. We suggest that you guide the bowl with one hand to help control the rocking action. **AVOID GETTING YOUR HANDS TOO NEAR THE DOUGH HOOKS!**

The kneading action may cause the mixer to slide on a slippery work surface. Be sure the work surface and rubber feet on the bottom of the mixer are clean and dry.

**CAUTION:** Do not use the mixer too near the edge of a table or counter top, where it could fall off.

### DO NOT LEAVE YOUR MIXER UNATTENDED WHEN USING THE DOUGH HOOKS.

#### Bread making instructions for dough hooks

Ingredients should be added to the mixing bowl as they are specified in the recipe.

Combine a small portion of the dry ingredients with the wet ingredients. Mix on Speed 6. Continue adding dry ingredients until the mixture becomes sticky, then turn to Speed 2. Gradually add remaining dry ingredients.

If there is high humidity in the air, it may be necessary to add additional flour to the recipe. The high humidity could also extend the amount of time necessary for baking.

Guide the mixing bowl with your hands. **Use caution to keep hands out of the way of the dough hooks.**

Do not attempt to scrape the bowl while the mixer is operating. Stop the mixer and scrape the sides of the bowl as necessary. Use a rubber or plastic spatula only.
