The topic is of extreme importance now as the international community demands a greater Japanese contribution to international society as well as changes in Japan to facilitate foreign access. The book discusses the internationalization of politics, economy and society. Topics of special interest include the internationalization of Japanese capital, the response of Japanese society to foreign workers, local level initiatives for internationalization and the internationalization of education. To place the internationalization of Japan in comparative perspective, there are chapters on Britain and the United States from a leading British and a leading American political scientist respectively. These two and the editors, aside, all the contributors are highly regarded Japanese scholars or commentators.
