Service Innovation in Design Studies and Practices Ahmad Zuhairi Abdul Majid,2022-07-23 This book is a guide for designers in industrial design as well as in other areas such as architecture interior design and visual communication in the area of digital media It is also suitable for service bidders as they also need to understand how to get the quality of care required with the aid of a designer who will be mindful on the intangible aspects of service As with other design areas service design often gives priority to studying prior to the application of the concept of innovation or service enhancement This is especially important since knowing the needs of the customers is the cornerstone of every discipline of design It is desirable for a designer to review the needs of customers and service markets before considering the planning process Service design is an element that has been implemented ever since a long time ago but it is unlikely that its application can be done quickly as there are combinations of different fields that need to contribute ideas and skills to service delivery Service design used to be a term that does not exist as service providers only discussed the concepts of to be built to be created to be launched and so on when service was to be introduced Thus this book aims to bring back service design to the limelight so as to not only educate designers but also to remind service providers that it is also and always will be an important part of service
