

Introduction to Subsea Well Production Control System

INSTRUCTOR LED

The Introduction to Subsea Well Production Control Systems course details a range of topics including system types, typical equipment, operator interfaces, control fluids, control interfaces and a look at future technologies. This course is aimed at any new start to the oil, gas and subsea industries, onshore and offshore, including engineers, technicians, supervisors, graduates and apprentices.

This course is designed to provide an understanding to learners of the basic components of the offshore oil and gas industry and to give an opportunity for all participants, both technical and non-technical, to have the basics explained in a clear and concise format.

The material covered in this course is instructor led, including interactive classroom activities.

- Control Systems
- Equipment
- Operations
- Interfaces
- Intervention
- Future technologies
