Rethinking Classroom Management Patricia Sequeira Belvel, 2009-12-07 Many of today's discipline problems result from student responses to outdated practices. This book lives up to its title providing innovative approaches that demonstrate leadership rather than management. Teachers discover creative and proactive ways to engage students in the development of learning environments that are positively charged, cooperatively structured, and self-governed. Dutchess Maye Fellow for Instructional Design, North Carolina Teacher Academy, Morrisville, NC. A classroom leadership model of prevention, intervention, and problem solving for both teachers and students. Emphasizing a leadership model for effective classroom management rather than relying on strategies for compliance and control, this updated edition of the bestseller describes a comprehensive approach that encourages teachers to reevaluate their beliefs, roles, and practices and engages students as partners in creating a powerfully supportive learning environment. Offering a unique perspective on classroom leadership that helps teachers address potential problems before learning is disrupted, this resource shows how integrating leadership into daily classroom life enhances learning by strengthening students' autonomy, self-esteem, and connectedness with others. Reflecting the author's years of experience and filled with more real-life examples, new techniques, and ready-to-use worksheets, the book provides an interactive process that allows teachers to foster leadership in themselves and their students. Includes classroom connections, personal connections, examples, checklists, and reflective questions. With its distinctive and creative perspective on classroom management, *Rethinking Classroom Management*, Second Edition, encourages teachers to become mentors and facilitators rather than classroom managers as they empower students to actively participate in their own learning. Charting Your Course John G. Conyers, Robert Ewy, 2003-07-03 *Charting Your Course* is the story of 2003 Malcolm Baldrige National Quality Award winner Community Consolidated School District 15 of Palatine, Illinois. The book shares the story of the school district's journey toward continuous improvement as they followed the Baldrige Award Criteria. The authors share both the good and the bad results encountered along the way, allowing the reader to learn from his experiences. The book will help other schools answer the many questions that will inevitably come up as they begin to follow the Baldrige criteria and will help them avoid making some of the same mistakes. PRAISE FOR CHARTING YOUR COURSE: A case study of the only school district in the state of Illinois to earn the top quality award from the Lincoln Foundation for Business Excellence. *Charting Your Course* is must reading for superintendents and principals who are serious about achieving organizational excellence. In this straightforward account of a school district seriously embracing the Malcolm Baldrige criteria, the authors detail what worked and what went awry and offer concrete suggestions on avoiding some of their mistakes.
