Suicide and the Law Elizabeth Wicks, 2023-02-23 This book investigates the law's approach to suicide in England and Wales. It explores the seismic shift in perceptions of the law's role in respect of suicide from imprisonment as a punishment for attempting suicide to courts hearing arguments about whether there is not only a right to suicide but also a right to assistance in suicide. This development stands alongside a global recognition of suicide prevention as a public health priority. In this book the dual priorities of respect for autonomy and the protection of human life are recognised as equally important and the legal issues surrounding suicide in a range of different contemporary contexts including suicide in prison and juvenile suicide are considered. The book also investigates what the relationship between mental health and suicide means for its legal regulation and evaluates the enduring legal offence of assisted suicide particularly in the context of the terminally ill. It is argued that a more refined approach to the topic of voluntary death should be recognised in the law one that distinguishes more clearly between autonomous decision making about the end of life and incapacitated self-caused risks to life that require effective preventative interventions.

The Body Productive Steffan Blayney, Joey Hornsby, Savannah Whaley, 2022-12-29 The Body Productive represents a new and radical approach to the relationships between capitalism, work and the body. Self-evident natural biological this is how we think of the body on an everyday basis. However, this supposedly most direct aspect of our being may in fact be a primary site of socio-economic mediation and ideological reproduction. How are bodies produced under capitalism? How in turn does capitalism make bodies productive? How is the body and knowledge of the body shaped by demands of production, consumption and exchange and how can these logics be resisted, challenged and overcome? These are the questions at the heart of The Body Productive, a collection of original, radical new approaches to the relationships between capitalism, work and the body from an international group of scholars and activists. Taking inspiration from the neglected theoretical work of François Guéry and Didier Deleule and bridging Marxist and Foucauldian traditions, this book rethinks the relationships between the biological and the social, the body and the mind, power and knowledge, discipline and control.

Live life: an implementation guide for suicide prevention in countries, 2021-06-11 This product addresses the global public health problem of close to 800,000 suicides every year of which 79% occur in low and middle income countries. Suicide is the second leading cause of death in the age group 15-29 years. WHO guidelines already exist in the area of suicide prevention https://www.who.int/mental_health/mhgap/evidence/suicide/en therefore this product is not a guideline but will ensure the implementation of the existing guidelines.

A Tear for China's Children □ A Study of Democratic Deficit, Human Rights Violations and Militarism in the People's Republic of China Dr. Mark O'Doherty, 2017-05-27 In June 2019 human rights lawyer Ji Sizun received the news that he had won a prestigious human rights distinction the Cao

Shunli Memorial Award in honour of the veteran Chinese activist who died in 2014 in police custody after being denied needed medical treatment for months. It would be a little more than one month until he himself died while under the watch of state security. Ji one of China's most prominent barefoot lawyers self taught legal advocates spent most of the last decade in prison in his native Fujian province. He was in a semi comatose state when he finished his most recent sentence of four and a half years in April 2019 and was immediately sent to a hospital. On 10 July 2019 two months after leaving prison Ji 69 died of unknown causes. He joins a growing list of imprisoned political activists who have died after being denied adequate medical treatment. For human rights defenders in China prison sentences are increasingly turning into death sentences. This is unacceptable and must change. Official stance by the NGO BTB Global Peacebuilding on China's Human Rights crisis. We are expecting that the Chinese Communist Party shows some gesture of goodwill that it is willing to evolve and improve itself. Otherwise severe international sanctions must be implemented against the Chinese government which might well cripple China's economy. Hence we are encouraging the Chinese Communist Party to come out of the Stone Age and join the rest of the International Community by finally implementing civil rights and democracy in China. The Legacy of the United States of America – A Country of Confident Idiots facilitating Militarism, Nuclear Armament and Disregard for Basic Human Rights Dr. Mark O'Doherty, 2017-04-06 Ranked only 20th in Global Education but filling the number one spot when it comes to self esteem the US has become a country of confident idiots. Many American people such as ex National Security Advisor John Bolton personify what American politics is all about. Aggression open hostility and winning no matter what the cost. This book also addresses America's aggressive foreign policy that Militarism and warmongering play a legitimate role in international politics which is not only counterproductive but also distorts national spending priorities with millions of poverty stricken Americans taking refuge in a negative lifestyle of individualism leading to crime alcoholism drug addiction homelessness and increased gun violence. Critical but also deeply sensitive and humane this book explores social scientific and Christian approaches so that America can be made great again. Peacebuilding Policies such as conflict resolution and international cooperation are also explored in this work.

US HEALTHCARE CRISIS Amid the pandemic the crisis in the US healthcare system has become evident as up to 35 million Americans are estimated to see their health coverage disappear in the middle of this Covid 19 nightmare. And premiums for those who retain their health insurance in this crisis could increase by up to 40%. As stories circulate of 34 000 coronavirus medical bills the uninsured remain terrified of going bankrupt just to get tested and treated for Covid 19. In many cases Americans just cannot afford to go to a doctor or the hospital. Hence it's imperative that a Basic Income Guarantee BIG together with basic health insurance is implemented in the US. It should also be noted that inequality and social discrimination of people is increasing dramatically in the US. As things stand the Biden administration is unwilling to implement a Basic Income Guarantee BIG which would be necessary to guarantee basic human rights and to stop the

discrimination of unemployed people which causes grave political instability and civil unrest in the US In a world where there are no guarantees and as citizens who must be under government rule we should at least be assured that we will be able to feed clothe and handle the simplest needs of human beings Hence implementing a basic income guarantee is an essential prerequisite to counteract inequality and to ensure basic human rights in the US and the International Community

Suicide and the Holocaust David Lester, 2005 The purpose of this important book is to explore the phenomena of the low suicide rate in the concentration camps during the Holocaust and why its survivors seem to become increasingly susceptible to suicide as they grow older This unique book explores this heretofore unexplored area of history by the case study method utilising the detailed biographies of famous survivors People kill themselves usually because they are in deep despair with no hope for the future Surely the people in the concentration camps especially those that were clearly extermination camps would have been in deep despair with no hope for the future But since they supposedly did not commit suicide at a high rate they must not have been in such state This puzzle of human behaviour is examined under the microscope of a well known world expert on suicide
