Suicide Risk Assessment Guide

Gianni Pirelli, Sarah DeMarco

Suicide Risk Assessment Guide:

Suicide Risk Management Sonia Chehil, Stanley P. Kutcher, 2012-02-06 Suicide Risk Management A Manual for Health Professionals is a short clearly written book that provides practical guidance on how to manage the suicidal or potentially suicidal patient Written by two expert teachers the book has been used in courses for trainee psychiatrists and for health professionals throughout the world Feedback from participants on these courses has informed revision of the new edition This book is of interest for all mental health professionals who come into contact with patients who present with suicide potential i e all mental health professionals as well as general health professionals who are often the first point of contact for a suicidal patient The book opens with a review of the epidemiology risk factors and associated aspects of suicide It then presents two assessment tools The Tool for Assessment of Suicide Risk TASR provides instruction on how to use it appropriately in the clinic The Suicide Risk Assessment Guide SRAG acts as a self study program to assess clinical evaluation skills Both tools were created for use in the authors own practice and are now successfully taught to and used by health professionals around the world Refined through actual experience these proven tools help assess and evaluate patients with confidence Case vignettes allow the reader to practice using the information they have learned from the book Throughout the book bulleted lists tables and flowcharts effectively describe how to use the many factors to assess the risk of suicide in an individual patient

Advances in Psychiatry and Behavioral Health, E-Book 2022 Deepak Prabhakar, 2022-09-13 In this issue guest editors bring their considerable expertise to this important topic Provides in depth reviews on the latest updates in the field providing actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create these timely topic based reviews

Returning Home from Iraq and Afghanistan Institute of Medicine, Board on the Health of Select Populations, Committee on the Assessment of Readjustment Needs of Military Personnel, Veterans, and Their Families, 2013-04-12 As of December 2012 Operation Enduring Freedom OEF in Afghanistan and Operation Iraqi Freedom OIF in Iraq have resulted in the deployment of about 2.2 million troops there have been 2,222 US fatalities in OEF and Operation New Dawn OND 1 and 4,422 in OIF The numbers of wounded US troops exceed 16,000 in Afghanistan and 32,000 in Iraq In addition to deaths and morbidity the operations have unforeseen consequences that are yet to be fully understood In contrast with previous conflicts the all volunteer military has experienced numerous deployments of individual service members has seen increased deployments of women parents of young children and reserve and National Guard troops and in some cases has been subject to longer deployments and shorter times at home between deployments Numerous reports in the popular press have made the public aware of issues that have pointed to the difficulty of military personnel in readjusting after returning from Iraq and Afghanistan Many of those who have served in OEF and OIF readjust with few difficulties but others have problems in readjusting to home reconnecting with family members finding employment

and returning to school In response to the return of large numbers of veterans from Iraq and Afghanistan with physical health and mental health problems and to the growing readjustment needs of active duty service members veterans and their family members Congress included Section 1661 of the National Defense Authorization Act for fiscal year 2008 That section required the secretary of defense in consultation with the secretary of veterans affairs to enter into an agreement with the National Academies for a study of the physical health mental health and other readjustment needs of members and former members of the armed forces who were deployed in OIF or OEF their families and their communities as a result of such deployment The study consisted of two phases The Phase 1 task was to conduct a preliminary assessment The Phase 2 task was to provide a comprehensive assessment of the physical psychologic social and economic effects of deployment on and identification of gaps in care for members and former members their families and their communities The Phase 1 report was completed in March 2010 and delivered to the Department of Defense DOD the Department of Veterans Affairs VA and the relevant committees of the House of Representatives and the Senate The secretaries of DOD and VA responded to the Phase 1 report in September 2010 Returning Home from Iraq and Afghanistan Assessment of Readjustment Needs of Veterans Service Members and Their Families fulfills the requirement for Phase 2

Clinician's Guide to Adult ADHD

Comorbidities Joseph Sadek, 2016-09-26 The diagnosis and management of ADHD co occurring with other disorders such as anxiety depression and personality disorders remain major challenges for clinicians treating all age groups This book guides clinicians through each step in the diagnosis and management of the comorbidities of adult ADHD on the basis of essential case studies describing psychiatric disorders that frequently occur with ADHD Each case includes a diagnosis section and management section and is accompanied by questions and answers concerning the most important aspects in diagnosing and managing both ADHD and the comorbid disorders Drawn from actual clinical encounters the case studies also feature ample current and valid references
