Redcoats Stephen Brumwell,2006-01-09 In the last decade scholarship has highlighted the significance of the Seven Years War for the destiny of Britain s Atlantic empire This major 2001 study offers an important perspective through a vivid and scholarly account of the regular troops at

the sharp end of that conflict's bloody and decisive American campaigns. Sources are employed to challenge enduring stereotypes regarding both the social composition and military prowess of the redcoats. This shows how the humble soldiers who fought from Nova Scotia to Cuba developed a powerful esprit de corps that equipped them to defy savage discipline in defence of their rights. It traces the evolution of Britain's American Army from a feeble conservative and discredited organisation into a tough flexible and innovative force whose victories ultimately won the respect of colonial Americans. By providing a voice for these neglected shock troops of empire, *Redcoats* adds flesh and blood to Georgian Britain's sinews of power.

Foundations for Community Health Workers Tim Berthold, Alma Avila, Jennifer Miller, 2009-08-13. *Foundations for Community Health Workers* is a training resource for client and community centered public health practitioners with an emphasis on promoting health equality. Based on City College of San Francisco's CHW Certificate Program, it begins with an overview of the historic and political context informing the practice of community health workers. The second section of the book addresses core competencies for working with individual clients such as behavior change counseling and case management and practitioner development topics such as ethics, stress management and conflict resolution. The book's final section covers skills for practice at the group and community levels such as conducting health outreach and facilitating community organizing and advocacy. Praise for *Foundations for Community Health Workers*: This book is the first of its kind, a manual of core competencies and curricula for training community health workers. Covering topics from health inequalities to patient centered counseling, this book is a tremendous resource for both scholars and practitioners in the field of community based medicine. It also marks a great step forward in any setting, rich or poor, in which it is imperative to reduce health disparities and promote genuine health and well being. Paul E. Farmer, MD, PhD, Maude and Lillian Presley Professor of Social Medicine in the Department of Global Health and Social Medicine at Harvard Medical School, founding director, Partners In Health. This book is based on the contributions of experienced CHWs and advocates of the field. I am confident that it will serve as an inspiration for many CHW training programs. Yvonne Lacey, CHW, former coordinator, Black Infant Health Program, City of Berkeley Health Department, former chair, CHW Special Interest Group for the APHA. This book masterfully integrates the knowledge, skills and abilities required of a CHW through storytelling and real life case examples. This simple and elegant approach brings to life the intricacies of the work and espouses the spirit of the role that is so critical to eliminating disparities, a true model educational approach to emulate. Gayle Tang, MSN, RN, director, National Linguistic and Cultural Programs, National Diversity, Kaiser Permanente. Finally, we have a competency based textbook for community health worker education, well informed by seasoned CHWs themselves as well as expert contributors. Donald E. Proulx, CHW, National Education Collaborative, University of Arizona.
