

GEOMETRY SUMMER PACKET

The problems in this packet are designed to help you review topics from previous mathematics courses that are important to your success in Geometry. The topics covered in this packet should be mastered before entering Geometry. If topics have not been mastered, examples have been provided in each section in a separate packet on line.

Topics in this packet will be assessed within the first week of school through a test. Completion of this packet will help the student's 1st quarter grade.

While it is not required, it is recommended that students buy a calculator for their personal use throughout the school year. A scientific calculator will be sufficient for Geometry, however a TI – 83 graphing calculator is recommended for Algebra 2 and beyond.
