United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Transportation and Related
Agencies Appropriations,1993 **Integrated Air Quality Management** Nguyen Thi Kim Oanh,2012-07-05 The steady
growth in the number of vehicles on the road heavy reliance on coal use of dirty fuels for residential combustion and
extensive open burning are some of the major factors leading to the progressive deterioration of air quality in developing
countries in Asia And despite efforts to establish and implement air quality measurement systems the development of
infrastructure environmental technology and management practices continues to lag behind the rate of emission increase
Based on ten years of coordinated research *Integrated Air Quality Management Asian Case Studies* discusses technical and
policy tools for the integrated air quality management of developing countries in Asia The book begins with an overview of
major issues of air quality management practices in developing Asia and potential approaches to reduce pollution including
opportunities for integration of air quality improvement and climate migration strategies It covers the methodology and
results of fine particulate matter monitoring using traditional filter based and satellite monitoring techniques It examines the
applications of a 3D dispersion modeling tool for urban and regional air quality management focusing on surface ozone fine
particulate matter and acid deposition The final chapters discuss innovative control technologies for gaseous air pollutants
and illustrate the integrated air quality management in developing Asia through case studies for target source categories
including agricultural residue field burning vehicle emissions brick kilns and industrial VOC emission Illustrated with case
studies this book presents an integrated air quality management methodology that employs technical and policy tools to
achieve air quality goals It includes technical information and policy recommendations based on the outcomes of several
multi year air quality research programs coordinated by the Asian Institute of Technology The text combines fundamental
information and advanced knowledge useful to large audiences dealing with subjects of integrated air quality management
