Just Another Car Factory? James Rinehart, Christopher Huxley, David Robertson, 2018-09-05 This study of CAMI Automotive a unionized joint venture between General Motors and Suzuki is the most comprehensive ever undertaken of a lean production plant James Rinehart Christopher Huxley and David Robertson address a topic that has inspired fierce debate in industrial relations sociology labor studies and human resource management Heralded as a model of lean production when it opened in 1989 CAMI promised workers something different from traditional plants a humane environment empowerment and cooperative labor management relations However the enthusiasm workers felt during the orientation and early phases of production steadily declined as did their involvement in participatory activities Workers came to describe CAMI as just another car factory Union challenges and shopfloor resistance to key elements of the lean system grew capped by a five week strike in 1992 The authors attribute workers disillusionment to lean production itself rather than to North American managers inadequate implementation Chilton Book Company Repair Manual ,1991 **Alternatives to Lean Production** Christian Berggren, 1993-11 Berggren provides a detailed evaluation of the reorganization of work within the Swedish auto industry during the period from 1970 1990 His book offers significant insights for anyone interested in industrial democracy work reorganization international competition **Defining the Lean Logistics Learning Enterprise** Jennifer Nicole Karlin, 2004 Training For What? Nancy Jackson, 1992-01-01 Are government sponsored training programs a route to greater management control of the workplace or to labour freedom Today as at the time of the book s publication in 1992 training is prominent in public policy and political life The authors in this collection maintain that it is central to management initiatives aimed at the restructuring of the workplace and that governments rely on it as a substitute for coherent industrial policy On the other hand it can enhance workers skills improve working conditions and build a more a more democratic working life Training for What is a collection of papers examining occupational training as a tool of ongoing political struggle in the workplace An Our Schools Our Selves book States Against Markets Robert Boyer, Daniel Drache, 2005-08-15 This work challenges the popular view that globalization threatens the role of the nation state in determining national policy It examines the fundamental issue of competitiveness and market power in an increasingly borderless and co dependent world Despite this increased threat to the nation state as an effective manager of the national economy the authors argue that there are a number of options and alternatives open to governments to protect themselves from the global business cycle **Ward's Automotive Yearbook** ,2005 Includes advertising matter The Harbour Report ,2006 **Asian American Librarians and Library Services** Janet Hyunju Clarke, Raymond Pun, Monnee Tong, 2017-12-08 What are the library services and resources that Asian Pacific Americans need What does it mean to be an Asian Pacific American librarian in the 21st century In Asian American Librarians and Library Services Activism Collaborations and Strategies library professionals and scholars share reflections best practices and strategies and convey

the critical need for diversity in the LIS field library programming and resources to better reflect the rich and varied experiences and information needs of Asian Americans in the US and beyond The contributors show that they care deeply about diversity that they acknowledge that it is painfully lacking in so many aspects of libraries and librarianship and that libraries and the LIS profession must systematically integrate diversity and inclusion into their strategic priorities and practices indeed in their very mission such that the rich diversity of experiences and histories of Asian Americans in library and archival collections services and programming are not only validated and recognized but also valued and celebrated as vital components of the shared American experience The volume recognizes and honors the creative and intentional work librarians do for their constituent Asian American communities in promoting resources services and outreach

Tony Elger, Chris Smith, 2010-11 Global Japanization Brings together research from North America Japan Europe and Latin America to analyse the influence of Japanese manufacturing investment and Japanese working practices across the global economy The editors present original case studies of work reorganization and workers experiences within both Japanese companies and those of their competitors in diverse sectors and national settings These studies provide a wide ranging critique of conventional accounts of Japanese models of management and production and their implications for employees They offer new evidence and fresh perspectives on the role of transplants in disseminating manufacturing innovations and on the responses of non Japanese firm in reorganizing production operations and industrial relations
