BSR SOUND UNIT WIRING DIAGRAMS

GOOD

This setup is used on older games. It allows the sound unit to be triggered to play game music by pressing the DMR buttons on either side of the game.

On really old games even the DMR cable may not be available, in those cases the sound unit must be controlled from the keypad only.

BETTER

This setup will provide the sound unit with more information about the game. It will be able to play kick-switch sounds, announce winners and play game music.

BETTER

Same as *Better* but draws power from the external power supply rather than from the SPI cable.
