Instructor Manual

Chapter 7

Supporting and Troubleshooting Windows

In this chapter, students will look under the Windows desktop at some of the complexity of the Windows operating system, including the registry, the Windows user options, power options, and various ways to start up Windows for resolving problems, as well as working with device drivers and troubleshooting. At the end of the lesson students should be able to:

LO 7.1 Define the role of the registry in Windows and back up and modify the registry when needed.

LO 7.2 Describe the Windows user options and power options, and, given a scenario, select appropriate startup options.

LO 7.3 Install and manage device drivers.

LO 7.4 Troubleshoot common Windows problems.

Estimated time for lesson: 3 to 4 hours

Preparing for Class

At minimum, the students should have computers configured with Windows 7, Windows 8.1 or Windows 10. Each student should be able to log on with an administrator type account.

Prerequisites for Class

Ensure that the students are:

- Able to access a running lab computer either individually or in small groups.
- Able to browse the Internet and capable of using a web browser.
- Able to access a computer running Windows, preferably Windows 7.

Class Preparation Notes

While there are no hands-on activities that will be as time-consuming as the installation labs of some of the early chapters, you should take time beforehand to review the five Step-by-Step exercises and four Try-This activities on a computer configured identically to the students' computers to determine where your group of students might have difficulty.

General Teaching Tips

This chapter moves from the conceptual to the practical, while maintaining the "survey" level. The goal of this chapter is to give users enough understanding of the workings of Windows to enable them to use some of the simpler recovery tools, but to also understand the boundaries between recovering from a disaster and creating a disaster by attempting to do advanced tasks without the requisite knowledge. This caution especially applies to the first section, where we want the students to understand the registry and its components but not to get bold about making direct changes. It includes a Try-This (page 268) in which they open Registry Editor, and a Step-
