fascinating study that explores issues of globalization by focusing on the role of McDonald's in five Asian economies and concludes that in many countries McDonald's has been absorbed by local communities and become assimilated so that it is no longer thought of as a foreign restaurant and in some ways no longer functions as one. Nicholas Kristof, New York Times Book Review. This is an important book because it shows accurately and with subtlety how transnational culture emerges. It must be read by anyone interested in globalization. It is concise enough to be used for courses in anthropology and Asian studies. Joseph Bosco, China Journal. The strength of this book is that the contributors contextualize not just the food side of McDonald's but the social and cultural activity on which this culture is embedded. *Meals Matter* Michael Symons, 2020-06-02. Until the early nineteenth century political philosophy and economics were dining companions. Both took up fundamental questions of how we should feed one another. But with the rise of corporate capitalism modern economics lost sight of its primary task and turned away from the complexities of real people's sustenance in favor of the single-minded pursuit of money. In *Meals Matter* Michael Symons returns economics to its roots in the distribution of food and the labor required. Setting the table with vivid descriptions of conviviality he offers a gastronomic rebuttal to the narrow worldview of mainstream economics. Engaging with a wide variety of thinkers including Epicurus Enlightenment philosophers such as Thomas Hobbes and John Locke the gastronome Jean Anthelme Brillat-Savarin and economic theorists from François Quesnay and Adam Smith through the neoliberals Symons traces how we went astray and how we can find our way back to a more caring sustainable way of life. He finds hope for shared table pleasure in institutions like community gardens street markets and banquets and in eating fresh local and slow food. An innovative historically based argument at the intersection of food history and social thought *Meals Matter* challenges us to reject the economics of greed in favor of a community-based economics of sharing and gastronomic enjoyment.
