Operation Manual For Dayton Sander:

Built to Move Millions Craig R. Semsel, 2008-04-17 A hobbyist's enthusiasm, curiosity, and attention to detail exude from this technological history of Ohio's streetcar industry. Highly recommended. Choice. At the beginning of the twentieth century, the street railway industry was one of the largest in the nation. Once ubiquitously visible on the city streets, by mid-century the streetcar was nothing more than a distant memory. Ohio was home to several large streetcar systems, especially in Cleveland and Cincinnati, and had more interurban tracks than any other state in the union. Thus, Ohio served as one of the street railway industry's greatest centers of manufacturing. *Built to Move Millions* examines the manufacture of streetcars and interurbans within the state of Ohio between 1900 and 1940. In addition to discussing the five major car builders that were active in Ohio during this period, the book addresses Ohio companies that manufactured the various components that went into these vehicles. Includes extensive photos. *Bibliography of Scientific and Industrial Reports*, 1947.
