The Little Book of Service Management Harry Katzan Jr., 2022-03-09 Service is the up and coming discipline for the 22nd century But exactly what is service Many people think that service is what people do no more no less Nothing can be farther from the truth Then if so why is the service community in constant disarray Startup businesses fail on a regular basis Why They simply do not provide good service Many persons in responsible positions rarely give service even a brief notice What they subconsciously think about service has to be the truth How often do you hear exclamations like I'll never fly again especially on that airline What about I've had it with fast food restaurants Have you ever heard a student say I'll never take another course from that professor Or it's a great car but the service stinks What about He may be a great doctor but he treats all patients like they are not human So what do you do if you own or manage a small business and want to start off right That's an easy question You simply send new employees or even experienced ones to service school You've heard of computer school but have you heard of service school There are books on computer for example all over the place But you probably have never seen one a book that is about service Is an automobile dealership the same as a pharmacy At the service level you can bet they are This book will tell you all you need to know about providing great service Have you ever heard of a 2 hour seminar on how to give good service I bet you haven't Sometimes a manager will give suggestions but that is about it This book is a service resource Have you experienced a doctor's office that calls a patient concerning what time his or her appointment is Have you had a car dealer tell you they have lost your car Has a doctor operated on the wrong leg Maybe
