British Modernism and Censorship Celia Marshik, 2006-07-06 Government censorship had a profound impact on the development of canonical modernism and on the public images of modernist writers Celia Marshik argues that censorship can benefit as well as harm writers and the works they create in response to it She weaves together histories of official and unofficial censorship of individual writers and their relationships to such censorship and of British modernism Throughout Marshik draws on an extraordinary range of evidence including the files of government agencies and social purity organisations She analyses how works were written revised published and performed in relation to this complex web of social forces Chapters of Dante Gabriel Rossetti Bernard Shaw Virginia Woolf James Joyce and Jean Rhys demonstrate that by both reacting against and complying with the forces of repression writers reaped personal and stylistic benefits for themselves and for society at large

The Translator as Writer Susan Bassnett, Peter Bush, 2007-11-15 Over the last two decades interest in translation around the world has increased beyond any predictions International bestseller lists now contain large numbers of translated works and writers from Latin America Africa India and China have joined the lists of eminent bestselling European writers and those from the global English speaking world Despite this translators tend to be invisible as are the processes they follow and the strategies they employ when translating The Translator as Writer bridges the divide between those who study translation and those who produce translations through essays written by well known translators talking about their own work as distinctive creative literary practice The book emphasises this creativity arguing that translators are effectively writers or rewriters who produce works that can be read and enjoyed by an entirely new audience The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating away from more abstract speculation about what translation might involve

Capitalism Karl Gerth, 2020-05-14 What forces shaped the twentieth century world Capitalism and communism are usually seen as engaged in a fight to the death during the Cold War With the establishment of the People's Republic of China in 1949 the Chinese Communist Party aimed to end capitalism Karl Gerth argues that despite the socialist rhetoric of class warfare and egalitarianism Communist Party policies actually developed a variety of capitalism and expanded consumerism This negated the goals of the Communist Revolution across the Mao era 1949 1976 down to the present Through topics related to state attempts to manage what people began to desire wristwatches and bicycles films and fashion leisure travel and Mao badges Gerth challenges fundamental assumptions about capitalism communism and countries conventionally labeled as socialist In so doing his provocative history of China suggests how larger forces related to the desire for mass produced consumer goods reshaped the twentieth century world and remade people's lives
