Tuscany in the Age of Empire Brian Brege, 2021-07-13 A new history explores how one of Renaissance Italy's leading cities maintained its influence in an era of global exploration, trade and empire. The Grand Duchy of Tuscany was not an imperial power but it did harbor global ambitions. After abortive attempts at overseas colonization and direct commercial expansion as Brian Brege shows, Tuscany followed a different path, one that allowed it to participate in Europe's new age of empire without establishing an empire of its own. The first history of its kind, Tuscany in the Age of Empire offers a fresh appraisal of one of the foremost cities of the Italian Renaissance as it sought knowledge, fortune and power throughout Asia, the Americas and beyond. How did Tuscany, which could not compete directly with the growing empires of other European states, establish a global presence? First, Brege shows, Tuscany partnered with larger European powers. The duchy sought to obtain trade rights within their empires and even manage portions of other states' overseas territories. Second, Tuscans invested in cultural, intellectual and commercial institutions at home, which attracted the knowledge and wealth generated by Europe's imperial expansions. Finally, Tuscans built effective coalitions with other regional powers in the Mediterranean and the Islamic world, which secured the duchy's access to global products and empowered the Tuscan monarchy in foreign affairs. These strategies allowed Tuscany to punch well above its weight in a world where power was equated with the sort of imperial possessions it lacked. By finding areas of common interest with stronger neighbors and forming alliances with other marginal polities, a small state was able to protect its own security while carving out a space as a diplomatic and intellectual hub in a globalizing Europe.

Memorie della R. Accademia delle scienze dell'Istituto di Bologna, Classe di scienze morali, 1923 Sunsweet Standard, 1920 The Correspondence of Reginald Pole Thomas F. Mayer, 2017-09-19 Reginald Pole, 1500-1558, cardinal and archbishop of Canterbury, was at the centre of reform controversies in the mid-16th century, an antagonist of Henry VIII, a leader of the reform group in the Roman Church and nearly elected pope. Julius III was elected in his stead. His voluminous correspondence, more than 2500 items including letters to him, forms a major source for historians, not only of England but of Catholic Europe and the early Reformation as a whole. In addition to the insight they provide on political history, both secular and ecclesiastical, and on the spiritual motives of reform, they also constitute a great resource for our understanding of humanist learning and cultural patronage in the Renaissance. Hitherto there has been no comprehensive, let alone modern or accurate, listing and analysis of this correspondence, in large part due to the complexity of the manuscript traditions and the difficulties of legibility. The present work makes this vast body of material accessible to the researcher, summarising each letter and printing key texts, usually in critical editions, together with necessary identification and comment. The first three volumes in this set will contain the correspondence; the fourth and fifth will provide a biographical companion to all persons mentioned and will together constitute a major research tool in their own right. This first volume covers the crucial turning point in Pole's career: his protracted break with Henry and the substitution of papal

service for royal One major dimension of this rupture was a profound religious conversion which took Pole to the brink of one of the defining moments of the Italian Reformation the writing of the *Beneficio di Christo* **Music, Patronage and Printing in Late Renaissance Florence** Tim Carter, 2024-10-28 This collection of reprinted essays starts from the author's doctoral research on Jacopo Peri and the rise of opera and solo song in late sixteenth and early seventeenth century Florence It extends to broader issues concerning music and patronage in the city as they affected individual composers patrons and institutions and thence to the commerce of music printing and the book trade It concludes with an attempt to suggest a broader view of these various issues as they impact upon musical life in the provinces in Tuscany There is a great deal of new documentary and other information here but the aim is also to expand methodological horizons so as to prompt new ways of thinking about music in its contexts **Woman Earthly and Divine in the Comedy of Dante** Marianne

Shapiro, 2014-07-15 This study examines all the characterizations of the female personality in the Divine Comedy including representations of things traditionally categorized as feminine Marianne Shapiro treats different traditional feminine roles such as wife lover and mother and places Beatrice in the latter group The problem of woman is studied within the general context of medieval literature Shapiro's conclusions center largely upon Dante's adherence to a generally misogynistic tradition While in his earlier works his concept of woman was as a comprehensive whole encompassing good and evil in the Comedy polarities are established and affirmed Concise Dictionary of Proper Names and Notable Matters in the Works of Dante Paget Jackson Toynbee, 1914 **The Renaissance of Roman Colonization** Jeremia Pelgrom, Arthur

Weststeijn, 2020-11-26 The colonization policies of Ancient Rome followed a range of legal arrangements concerning property distribution and state formation documented in fragmented textual and epigraphic sources When antiquarian scholars rediscovered and scrutinized these sources in the Renaissance their analysis of the Roman colonial model formed the intellectual background for modern visions of empire What does it mean to exercise power at and over distance This book foregrounds the pioneering contribution to this debate of the great Italian Renaissance scholar Carlo Sigonio 1522-3-84 His comprehensive legal interpretation of Roman society and Roman colonization which for more than two centuries remained the leading account of Roman history has been of immense but long disregarded significance for the modern understanding of Roman colonial practices and of the legal organization and implications of empire Bringing together experts on Roman history the history of classical scholarship and the history of international law this book analyzes the context making and impact of Sigonio's reconstruction of the Roman colonial model It shows how his legal interpretation of Roman colonization originated and how it informed the development of legal colonial discourse from imperial reform and colonial independence in the nascent United States of America to Enlightenment accounts of property distribution Through a detailed analysis of scholarly and political visions of Roman colonization from the Renaissance to today this book shows the enduring relevance of legal interpretations of the Roman colonial model for modern experiences of empire **Visions of Politics: Renaissance**

The Medici Women Natalie R. Tomas, 2017-07-05 The Medici Women is a study of the women of the famous Medici family of Florence in the fifteenth and early sixteenth centuries Natalie Tomas examines critically the changing contribution of the women in the Medici family to the eventual success of the Medici regime and their exercise of power within it and contributes to our historical understanding of how women were able to wield power in late medieval and early modern Italy and Europe Tomas takes a feminist approach that examines the experience of the Medici women within a critical framework of gender analysis rather than biography Using the relationship between gender and power as a vantage point she analyzes the Medici women's uses of power and influence over time She also analyzes the varied contemporary reactions to and representation of that power and the manner in which the women's actions in the political sphere changed over the course of the century between republican and ducal rule 1434-1537 The narrative focuses especially on how women were able to exercise power the constraints placed upon them and how their gender intersected with the exercise of power and influence Keeping the historiography to a minimum and explaining all unfamiliar Italian terms Tomas makes her narrative clear and accessible to non specialists thus The Medici Women appeals to scholars of women's studies across disciplines and geographical boundaries

La Villa Bartolomeo Taegio, 2011-09-21 Published in 1559 and appearing here for the first time in English La Villa is a rare source of Renaissance landscape theory Written by Bartolomeo Taegio a Milanese jurist and man of letters after his banishment possibly for murder Thomas E Beck speculates the text takes the form of a dialogue between two gentlemen one a proponent of the country the other of the city While it is not a gardening treatise La Villa reflects an aesthetic appreciation of the land in the Renaissance reveals the symbolic and metaphorical significance of sixteenth century gardens for their owners and articulates a specific philosophy about the interaction of nature and culture in the garden This edition of the original Italian text and Beck s English translation is augmented with notes in which Beck identifies numerous references to literary sources in La Villa and more than 280 people and places mentioned in the dialogue The introduction illuminates Taegio s life and intellectual activity his obligations to his sources the cultural context and the place of La Villa in Renaissance villa literature It also demonstrates the enduring relevance of La Villa for architecture and landscape architecture La Villa makes a valuable

Renaissance Florence " Stefanie Solum, 2017-07-05 Long obfuscated by modern definitions of historical evidence and art patronage Lucrezia Tornabuoni de Medici's impact on the visual world of her time comes to light in this book the first full length scholarly argument for a lay woman's contributions to the visual arts of fifteenth century Florence This focused investigation of the Medici family's domestic altarpiece Filippo Lippi's *Adoration of the Christ Child* is broad in its ramifications Mapping out the cultural network of gender piety and power in which Lippi's painting was originally embedded author Stefanie Solum challenges the received wisdom that women played little part in actively shaping visual culture during the Florentine Quattrocento She uses visual evidence never before brought to bear on the topic to reveal that Lucrezia Tornabuoni shrewd power broker pious poetess and mother of the Magnificent Lorenzo de Medici also had a profound impact on the visual arts Lucrezia emerges as a fascinating key to understanding the ways in which female lay religiosity created the visual world of Renaissance Florence The Medici case study establishes at long last a robust historical basis for the assertion of women's agency and patronage in the deeply patriarchal and artistically dynamic society of Quattrocento Florence As such it offers a new paradigm for the understanding and future study of female patronage during this period **Antonio**
