levels Different regulatory mechanisms across countries have contributed to the slow pace of liberalization Logistics is an important industry in the services sector The integration of logistics is important for deepening economic integration in ASEAN as it facilitates the movement of goods services and people within and across countries among producers and from producers to consumers In view of its importance ASEAN has identified logistics as one of its priority integration sectors It has also developed a Connectivity Master Plan and a Strategic Transport Plan where logistics plays an important role This book examines the current state of services liberalization in the ten ASEAN economies It also assesses the FDI enabling environment and the extent of FDI liberalization in the logistics sector as well as the liberalization challenges encountered in each of the ASEAN economies The book thus provides a comparative picture of services liberalization as well as the state of logistics liberalization and development in each of the ten ASEAN member countries All these have important bearings on deepening ASEAN economic integration for 2025 and beyond      **International Business** V.K.Bhalla,2013 International Business      Parliamentary Debates India.
