

Neil Armstrong

Neil Armstrong was born on August 5, 1930. His family lived in 20 towns when he was a boy!

When Neil turned six, his dad took him for his first plane ride in a Tin Goose. It was a plane that had three motors. Neil knew that he would one day be a pilot.

At 15, Neil took part-time jobs in three stores. A flying lesson cost \$9 an hour. He had to work 21 hours to earn just one lesson. He spent a year learning to fly and earned his pilot's license at the age of 16. He got it before his driver's license!

Neil joined the U.S. Navy and flew planes in the Korean War. He was known for being brave.

Neil in Space

Neil wanted to learn more. The U.S. Navy sent him to college. There he took classes to learn about flying in space. After college, Neil went to work at NASA, which is America's space program. He became an astronaut (AS-truh-nawt).

In 1966, Neil led the Gemini 8 mission. He and David Scott blasted off in order to dock their craft with an unmanned rocket in space. They did it! But then something went wrong. They started to spin out of control. Neil stayed calm and fixed the problem. Gemini 8 landed safely in the Pacific Ocean.

Neil Armstrong Biography For 4th Grade
