Nelson Mandela Metropolitan 2015 Prospects:

The African Union Tony Karbo, Tim Murithi, 2017-11-23 The African Union has been a major factor in establishing peace security and development in Africa Today however the intranational body is struggling in the midst of a perceived dissipating appetite for supporting continental institutions Previously seen as the panacea to Africa's continuing problems with violence and corruption in society under the slogan African Solutions to African Problems the African Union this book argues seems to have run its course Recognizing that the measured successes in political emancipation which have been recorded across the African continent do not seem to have translated into economic and social gains for its 1.2 billion citizens the AU adopted a new development framework dubbed Agenda 2063 The framework calls on African leaders to rediscover the Pan African spirit and to create the Africa Africans want In practice this means a new focus and engagement with the African Diaspora tapping into their strong track record in economic development As this book shows however there remain deep differences over the meaning timing and sequencing of pan African integration Indeed different member states have different understandings of the role of the African Union itself This essential handbook from one of the leading research institutions on the continent seeks to uncover what some of those understandings are and why the unification project has remained so elusive

Delivering an Elusive Dream of Democracy Joleen Steyn Kotze, 2018-09-10 This book analyses the decline of the ANC in Nelson Mandela Bay the economic hub of the Eastern Cape also known as the party's heartland Over the course of last twenty four years party dominant dilemmas have plagued the ANC in the Nelson Mandela Bay This includes corruption political factionalism blurring the line between party and state as well as engaging in spoils politics While this metro had encapsulated the Dream of 94 since the inception of democracy in South Africa weak quality of governance lack of political efficacy and mediocre if not anorexic service delivery effectively led to the ANC losing this symbolically important metropolitan municipality With the loss of Nelson Mandela Bay voters effectively demonstrated that they are no longer willing to accept the liberation narrative and elusive promise of a better tomorrow The ANC can no longer rely on the political capital of the liberation struggle in securing and maintaining its electorally dominant position The loss of Nelson Mandela Bay coupled with Johannesburg and Tshwane could potentially signal the end of ANC electoral dominance The author tracks the electoral decline of the ANC and analyses the dynamics that impact on its ability to potentially sustain its political and electoral dominant position in future elections

unemployment The chapters investigate the role of the post apartheid state in pursuing development and navigating a neoliberal globalised society The book explores state capacity in all spheres of government the relationship between politics and bureaucracy and the role of state owned enterprises in the country s developmental aspirations The book concludes by summarising the successes challenges and lessons that have emerged over the course of the book and anticipating future directions or possibilities for the state in South Africa s development impasse Bringing together leading voices in the field this book will be an essential read for researchers of African politics political economy and development The book is also relevant for policymakers students and practitioners in social sciences
