,1908 Biological Foundations of Emotion Robert Plutchik,Henry Kellerman,2013-09-17 Biological Foundations of Emotion
is a detailed account of the relations between brain structure functions and emotions based on the results of experimental
work and theoretical modeling A range of issues are examined such as whether there are structures circuits or biochemical
events in the brain that control emotional expressions or experience the effects of lesions and electrical stimulation on
emotions and the role of genetics in the expression of emotion Comprised of 16 chapters this volume begins with a
presentation of general models of brain functioning The first chapter deals with the neural substrate for emotion and cites
evidence showing that the conventional concept of a limbic system underlying all emotions is not adequate The discussion
then turns to ethological and evolutionary factors of emotion with emphasis on neuroendocrine patterns of emotional
response ictal symptoms relating to the nature of affects and their cerebral substrate the anatomy of emotions and neural
systems involved in emotion in primates Subsequent chapters present different but overlapping brain models of aggression
and examine the role of biochemistry in understanding emotions This book will be of interest to biologists and psychologists
