Perspectives on New Testament Textual Criticism Eldon Jay Epp, 2005-06-01 This collection of frequently cited articles and chapters published from 1962 to 2004 provides perspective on the history and development of New Testament textual criticism with descriptions and critique of the major text critical theories and methods Specific manuscripts and text types such as the Codex Bezae and the D text are discussed as well as issues such as anti Judaic tendencies the ascension narratives and the relationship of text and canon Many of the essays from the last fifteen years emphasize the earliest period and papyrus manuscripts particularly those found at Oxyrhynchus and assess their socio cultural and intellectual contexts while articles from the last five years advocate or engage the more controversial aspects of current New Testament textual criticism especially the issue of original text Toward a Science of Translating? Stefan Felber, 2025-03-27 Eugene A Nida is one of the pioneers and founders of modern translation theory coining the terms dynamic equivalence and formal equivalence and energetically promoting the former though in his latter years preferring the term functional equivalence Originally formulated for the Bible Translation efforts amongst people groups without the Bible Nida s theories of translation

have also been widely influential in Translation Studies making this presentation of Eugene A Nida's life 1914-2011 and assessment of his works especially timely and significant. Stefan Felber is a German Old Testament scholar, former seminary professor and author of the German only *Wesen und Würde des Wortes Biblisch-theologische Grundlagen für das Verständnis von Sprache und Kommunikation*. The Nature and Dignity of the Word: Biblical Theological Foundations for Understanding Language and Communication in *Zwischen Babel und Jerusalem*. Aspekte von Sprache und Übersetzung among other works. As such he is uniquely qualified to offer this fair-minded and masterful yet critical evaluation of Nida's model of translation doing so from a rich variety of disciplines including exegesis, theology, philology and philosophies of language. Whether one agrees or disagrees with either Nida or Felber, I highly recommend this rigorous and wide-ranging exposition for advancing informed dialogue and promoting further understanding and advances in Translation Studies. Professor Tom McCormick, Tyndale University College, Toronto. Although the theory of Dynamic or Functional Equivalence was the most widely used method in global Bible translation after the Second World War, there has been no comprehensive study of its foundations and how it was developed by Eugene Nida. Filling this gap is one of the great merits of Felber's study. Felber, while showing great respect for Nida, critically evaluates Dynamic Equivalence from various perspectives: exegetical, theological, philosophical and linguistic. This multi-dimensional nuanced approach provides the reader with thought-provoking and helpful insights that further the discussion in important ways. Felber's study is a must-read for all who deal with language and translation in theology and the church in Bible translation and mission. Prof. Dr. Markus Zehnder, Internationale Hochschule Bad Liebenzell. Evangelische theologische Fakultät, Leuven. Ansgarskolen, Kristiansand. Stefan Felber's *Toward a Science of Translating* is a landmark study in Biblical Translation Theory focussing on Eugene Nida 1914-2011, who for many years was a central figure in the American Bible Society and the United Bible Societies. Nida has been described as probably the world's leading scholar on translation and his theory of Dynamic or Functional Equivalence provided a leading paradigm for Bible translators for decades. In this thorough analysis of his work and its reception, Felber highlights a number of weaknesses as well as some strengths affiliated with Nida's theory promoting translation theory based on reader-oriented thought for thought patterns rather than traditional source-oriented analysis of textual form and content. Felber's evaluation raises a critical question: Are facets of the biblical text pertaining to biblical language and hermeneutics theology and the transcendent downplayed in Nida's addressee-oriented approach to translation? I hope this book will be widely read by translators, biblical scholars and others interested in translation of the Bible. Dr. Tomas Bokedal, Associate Professor of New Testament and Early Christianity, NLA University College, Norway. Docent of New Testament Exegesis, Lund University, Sweden. *THE TEXT OF THE NEW TESTAMENT* by Edward D. Andrews, Don Wilkins, 2017-05-04. *THE TEXT OF THE NEW TESTAMENT* was copied and recopied by hand for 1,500 years. Regardless of those scribes who had worked very hard to be faithful in their copying, errors crept into the text. How can we be confident that what we have today is the Word of God? Wilkins and Andrews offer the reader an

account of the copying by hand and transmission of the Greek New Testament They present a comprehensive survey of the manuscript history from the penning of the 27 New Testament books to the current critical texts What did the ancient books look like and how were documents written How were the New Testament books published Who would use secretaries Why was it so hard to be a secretary in the first century How was such work done What do we know about the early Christian copyists What were the scribal habits and tendencies Is it possible to establish the original text of the New Testament How do paleographers date the ancient manuscripts How has the Greek New Testament text come down to us How did textual variations and manuscript families arise Just how many textual variants are there and how are they to be counted What guarantee do we have as to the reliability of the Greek text What are the principles and rules of textual criticism and how are they to be applied so that we can get back the original reading What are the collation and classification of manuscripts What is the Coherence Based Genealogical Method CBGM and can it be trusted How reliable are our master critical Greek texts of the New Testament WH NA28 UBS5 Why can we be confident that the literal translations ASV RSV NASB UASV are providing for its readers the faithful Word of God Their work on THE TEXT OF THE NEW TESTAMENT is carried out with an apologetical mindset to assist Christians in their defense of God's Word Biblical Exegesis, Fourth Edition John H. Güting, 2020-09-25 The fruit of more than three decades of research This collection of fourteen essays by Eberhard W G ting covers important aspects of editorial science with a particular focus on New Testament textual criticism Essays cover textual emendation text critical procedures literary criticism history of scholarship advantages and disadvantages of online manuscripts and text critical studies of words and phrases The addition of a substantial introduction to text criticism makes this a valuable resource for students and teachers Features Essays concerned with establishing the original text of New Testament writings Nine essays published in English for the first tim Two previously unpublished essays **Fidelity with Plausibility** Wesley J. Wildman, 1998-01-01 Virtually all human endeavors can be analyzed and modeled and understood through computer aided study and that is very much at the core of operations research game theory and decision science Understanding the potential impact of any action is critical to the success of that action and in ESTIMATING IMPACT Alexander Kott and Gary Citrenbaum with a stellar group of contributors demonstrate how military or humanitarian interventions or the decision not to intervene can be rigorously analyzed beforehand and their likely impacts and ramifications predicted at levels appropriate to their scope A wide range of modeling programs are available that support plan assessment and impact forecast and they allow accurate prediction within an interdependent set of political military economic social information and infrastructure systems and experts involved in the use and development of these tools demonstrate how when and why they should be used Inductive Bible Study David R.
