methods in the software development process This volume contains the papers presented at the 3rd Workshop on Formal Approaches to Testing of Software FATES 2003 that was in a liation with the IEEE ACM Conference on Automated Software Engineering ASE 2003 This year FATES received 43 submissions Each submission was reviewed by at least three independent reviewers from the program committee with the help of ditional reviewers Based on their evaluations 18 papers submitted by authors from 13 di erent countries were selected for presentation at the workshop Transportation Corps Professional Bulletin ,1990 *Digital Avionics Handbook* Cary R.
