

Romanesque Art Study Guide

The Romanesque art style flourishes during the 11th & 12th century in Europe. The term

"Romanesque" denotes a style which incorporated some the significant features of Roman architecture such as:

- (a) round arches*
- (b) stone vaults,*
- (c) thick walls*
- (d) exterior reliefs.*

In addition, Romanesque architecture combined linear patterns of Hiberno-Saxon art as well as influences from Byzantine and Islamic tradition.

During this period of European history the continent was characterized by regions rather than nations, such as Normandy in NW France or Burgundy in Central France.

At this time the Christian church had a relatively stable period and accordingly the building of churches and monasteries increased. Many of the innovations during this period were found in churches in France.

Many of the incursions and raids of the early middle ages decreased and ceased as Vikings became Christian and the duke William II of Normandy conquers England and establishes the feudal system.

Feudalism: a social system that existed in Europe during the Middle Ages in which people worked and fought for nobles (lord of the manor) who gave them protection and the use of the lord's land in return for their labor. This system continued to exist until World War I when so many of the workers were killed during the war.

During this period, the Crusaders head east to reclaim holy sites in Syria and Palestine from the Muslims. The word crusade comes from the Latin Crux for cross. The majority of the Crusades began in about 1095 and continued through 1204. Others were later, particularly the Reconquista of Spain from the Moors which ended in 1492, the same year Columbus sailed to the Americas.

The actual territorial gains were not significant (other than in Spain) but the Crusades did give rise to the formation of Christian Knighthoods such as the Knights of St. John of Jerusalem and the Knights Templar.

Under the feudal system with local lords retaining control over their estates the central authority was the Church – especially in France where it owned about 1/3 of the land.
