Hill, 2022 The First Chapters uncovers the origins of the first paragraph or chapter divisions in copies of the Christian Scriptures Its focal point is the magnificent fourth century Codex Vaticanus Vat gr 1209 B 03 perhaps the single most significant ancient manuscript of the Bible and the oldest material witness to what may be the earliest set of numbered chapter divisions of the Bible The First Chapters tells the history of textual division starting from when copies of Greek literary works used virtually no spaces marks or other graphic techniques to assist the reader It explores the origins of other numbering systems like the better known Eusebian Canons but its theme is the first set of numbered chapters in Codex Vaticanus what nineteenth century textual critic Samuel P Tregelles labelled the Capitulatio Vaticana It demonstrates that these numbers were not as most have claimed late additions to the codex but belonged integrally to its original production The First Chapters then breaks new ground by showing that the Capitulatio Vaticana has real precursors in some much earlier manuscripts It thus casts light on a long continuous tradition of scribally placed visual guides to the reading and interpreting of Scriptural books Finally The First Chapters exposes abundant new evidence that this early system for marking the sense divisions of Scripture has played a much greater role in the history of exegesis than has previously been imaginable

Goodspeed, 2012-03-07 About the Contributor s Edgar J Goodspeed 1871 1962 was Ernest DeWitt Burton Distinguished Service Professor of New Testament at the University of Chicago He published more than sixty books including *The New Testament An American Translation* *An Introduction to the New Testament* *A History of Early Christian Literature* and Pau **Ramus, Pedagogy and the Liberal Arts** Emma Annette Wilson, 2016-04-08 Most early modern scholars know that Petrus Ramus 1515 1572 is important but may be rather vague as to where his importance lies This new collection of essays analyses the impact of the logician rhetorician and pedagogical innovator across a variety of countries and intellectual disciplines reappraising Ramus in the light of scholarly developments in the fifty years since the publication of Walter Ong s seminal work *Ramus Method and the Decay of Dialogue* Chapters reflect the broad impact of Ramus and the Ramist method of teaching across many subjects including logic and rhetoric pedagogy mathematics philosophy and new scientific and taxonomic developments in the sixteenth and seventeenth centuries There is no current work that offers such a broad survey of Ramus and Ramism or that looks at him in such an interdisciplinary fashion Ramus influence extended across many disciplines and this book skillfully weaves together studies in intellectual history pedagogy literature philosophy and the history of science It will prove a useful starting point for those interested in Ramus and his impact as well as serving to redefine the field of Ramist studies for future scholars **A Guide to Bible Study** Harry E. Richards, 1914 Paul's Witness to Formative Early Christian Instruction Benjamin A. Edsall, 2014-04-08 Benjamin A Edsall re opens the old quest for the preaching and teaching of the early Church through a new approach that draws on ancient communication practices Given that ancient communicators relied explicitly on what they presumed their interlocutors to know the author reconstructs early Christian instruction through Pauline appeals to previous knowledge both explicit and implicit God is One Christopher R. Bruno, 2014-03-27 In discussions of Paul s letters much attention has been devoted to statements that closely identify Christ with Israel s God i e 1 Cor 8 6 However in Rom 3 30 and Gal 3 20 Paul uses the phrase God is one to link Israel s monotheistic confession and the inclusion of the Gentiles in the people of God Therefore this study traces the OT

and early Jewish backgrounds of the phrase God is one and their possible links to Gentile inclusion Following this Christopher Bruno examines the two key Pauline texts that link the confession of God as one with the inclusion of the Gentiles Bruno observes a significant discontinuity between the consistent OT and Jewish interpretations of the phrase and Paul's use of God is one in relation to the Gentiles In the both the OT and early Jewish literature the phrase functions as a boundary marker of sorts distinguishing the covenant people and the Gentiles The key exception to this pattern is Zech 14 9 which anticipates the confession of God as one expanding to the nations Similarly in Romans and Galatians the phrase is not a boundary marker but rather grounds the unity of Jew and Gentile The contextual arguments in Rom 3 30 and Gal 3 20 lead to the conclusion that Paul's monotheism must now be understood in light of the Christ event moreover Zech 14 9 may play a significant role in the link between Paul's eschatological monotheism and his argument for the inclusion of the Gentiles in Romans and Galatians

*Heavenly Stories* Alexander Kocar,2021-07-30 Salvation is often thought to be an all or nothing matter you are either saved or damned In the ancient world some figures including Paul the Apostle John of Patmos Hermas the Sethians and the Valentinians did not think this way however For them there were multiple levels of salvation Examining the reasons and implications for why these important thinkers believed that salvation comes in degrees *Heavenly Stories* offers a fresh perspective on ancient thinking about responsibility especially as it intersects with concerns such as genealogy and determinism It shows why Jews and Christians of various kinds some eventually declared orthodox others heretical correlated ethics and soteriology and argued over how this should be done By constructing a difference between a lower and higher level of salvation ancient authors devised soteriological hierarchies that could account for ethical imperfections and social differentiation between their communities and outsiders as well as reinforce idealized portrayals of conduct among members of their own groups Alexander Kocar asks how these thinkers identified and described these ethical and social differences among people what commitments motivated them to make such distinctions what were the social effects of different salvific categories and ethical standards and what impact did hierarchically structured soteriologies have on notions of ethical responsibility His

findings have repercussions for the study of ancient ethics especially free will and responsibility our understanding of orthodoxy and heresy and scholarly debates surrounding the origins of Christianity as a movement that allegedly transcends ethnic boundaries
