## **Negotiating Skills How To Negotiate Anything To Your Advantage:**

**Negotiating Skills** Jim Berry, 2014-12-16 Negotiation is a practice that not everyone approves of it There are those who hate it because they think it is too confrontation or simply they don't want to be bothered This book will show you how negotiations in everyday transactions do not necessarily have to be confrontational instead they can be fun Becoming a master negotiator therefore requires that you develop certain qualities such as problem solving abilities confidence and the flexibility to change tactic during the negotiation process Practice always makes perfect and the more time and resources you put into the negotiation planning the higher the chances that you will succeed and get what you want Remember that you are not the only one on the negotiation table but rather a party to a wide range of interests and perspectives Try to accommodate the views and concerns of the other people by listening carefully to what they are saying Do not try to win every argument because this can make you look aggressive and rude from the perspective of your opponent On the contrary strive to make your argument reasonable and fair across the board The guidelines illustrated in this book will teach you a new way of dealing with people regardless of how difficult or insensitive they are You will become a better negotiator in both the simple and complex day to day negotiations that many people fear In a negotiation process every person is significant and there is no ultimate decision maker Do not dictate what needs to be done and the perspective to be followed Instead win people over to your side through the simple tactic of communication skills Be open to positive criticism and do not take anything personal Being calm and composed will position you at a vantage point to win any negotiation
