Nerve Cell

1:central nervous system

the central nervous system . The central nervous system is the brain and spinal cord. The central nervous system's responsibilities include receiving, processing, and responding to sensory information.

The brain is an organ of nervous tissue that is responsible for responses, sensation, movement, emotions, communication, thought processing, and memory. Protection for the human brain comes from the skull, meninges, and cerebrospinal fluids. The nervous tissue is extremely delicate and can suffer damage by the smallest amount of
