**Intermarium** Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the

successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture *Rights Before Courts* Wojciech Sadurski,2005-02-21 Challenging the conventional wisdom that constitutional courts are the best device that democratic systems have for the protection of individual rights Wojciech Sadurski examines carefully the most recent wave of activist constitutional courts those that have emerged after the fall of communism in Central and Eastern Europe In contrast to most other analysts and scholars he does not take for granted that they are a force for the good but rather subjects them to critical scrutiny against the background of a wide ranging comparative and theoretical analysis of constitutional judicial review in the modern world He shows that in the region of Central and Eastern Europe their record in protecting constitutional rights has been mixed and their impact upon the vibrancy of democratic participation and public discourse about controversial issues often negative Sadurski urges us to reconsider the frequently unthinking enthusiasm for the imposition of judicial limits upon constitutional democracy In the end his reflections go to the very heart of the fundamental dilemma of constitutionalism and political theory how best to find the balance between constitutionalism and democracy The lively if imperfect democracies in Central and Eastern Europe provide a fascinating terrain for raising this question and testing traditional answers This innovative wide ranging and thought provoking book will become essential reading for scholars and students alike in the fields of comparative constitutionalism and political theory particularly for those with an interest in legal and political developments in the postcommunist world *Low skilled take their qualifications "one step up"* Paolo Federighi,Francesca Torlone,2010 Adult learning is recognized as a key component of lifelong learning and Member States are required to remove barriers to participation to increase overall quality and efficiency in adult learning to speed up the process of validation and recognition and to ensure sufficient investment in and monitoring of the field European Commission 2006 2007 European Parliament 2008 European Council 2008 It is unanimously recognized that adult learning can play a pivotal role in meeting the goals of the Lisbon Strategy by fostering social cohesion providing citizens with the skills required to find new jobs and helping Europe to better respond to the challenges of globalisation Such needs are taken into consideration in this Volume where the main issues faced are related to what 33 European countries have been doing in order to raise the skills levels of low skilled workers address the problem of the high number of early school leavers combat social exclusion ensure the efficiency effectiveness quality of adult learning **At Dawn We Slept** Gordon W.
