It raises questions about the general content of the primary curriculum while underlining the range of teaching strategies which are available to teachers wishing to convey complex ideas to children of all ages and abilities. **Teaching Shakespeare in Primary Schools** Stefan Kucharczyk, Maureen Kucharczyk, 2021-09-27

Teaching Shakespeare in Primary Schools offers guidance and practical ideas for teaching Shakespeare's plays across Key Stage 1 and 2. It demonstrates how the plays can engage young readers in exciting, immersive and fun literacy lessons and illustrates how the powerful themes, iconic characters and rich language remain relevant today. Part 1 explores the place of classic texts in modern classrooms, how teachers can invite children to make meaning from Shakespeare's words and considers key issues such as gender and race and embraces modern technology and digital storytelling. Part 2 presents Shakespeare's plays: The Tempest, A Midsummer Night's Dream, Romeo and Juliet, Julius Caesar, Macbeth and The Winter's Tale. For each play, there is a suggested sequence of activities that will guide teachers through the process of inspiring children, incubating ideas and making connections all before responding to it through drama, writing and other subjects. You don't need to be an actor, a scholar or even an extrovert to get the best out of Shakespeare. Written by experienced teachers, this book is an essential resource for teachers of all levels of experience who want to teach creative, engaging and memorable lessons. *Teaching Through Texts* Holly Anderson, Morag Styles, 2002-02-07 Drawing on many popular and literary texts, the contributors to this book write with enthusiasm about opportunities for creative teaching and learning and provide many examples of good practice both inside and outside the Literacy Hour.

How Children Learn to Write Dorothy Latham, 2002-07-25 This book is a useful addition to any staff library. What makes it different to many other similar books is that it shows teachers that speaking, listening and reading create the foundations for writing. Tested in schools, staff said it is a very useful framework for action research based upon secure theory. When deciding classroom strategies, it is easy to find what you are looking for and the chapter summaries are very helpful. Some of the staff development and training suggestions are very practical and we are trying them out. We found the emphasis upon class novels and the class discussion that follows

very important especially when linked to the excellent examples of children's writing This book may appear to some as theoretical and academic but this is why it will be valuable It does what the title says because it shows how children learn to write It starts at the beginning and saves diving into the latest trend Perhaps its best recommendation is that every school that was asked to look at it said It's good and we have ordered a copy John Lilly independent education consultant The chapter on the Taxonomy of Writing Purposes will be useful for planning and those on extending and enhancing writing will definitely be helpful in many day to day situations Nicholas Bielby Times Educational Supplement This book outlines the processes which are involved when children learn to write The author shows how certain strategies can improve children's progress in writing Dealing with the age range three to 13 the book addresses issues to do with the gender gap children with English as an additional language left handedness Dorothy Latham includes ideas for sound and easy ongoing assessment of writing The book is written in line with the requirements of the English National Curriculum and The National Literacy Strategy Framework for England but is not limited to them Topics also covered include brain development and structures the acquisition of speech language and thinking working memory secretarial skills stages in compositional development writing purposes and cross curricular applications strategies for improving self generated writing using reading to improve writing using speech and drama to improve writing and ten ways to improve children's writing This book is for serving teachers in schools wishing to study the subject in further depth and as a source book for students Useful for school based staff INSET it provides simple activities for teachers to do and discuss

Cultural Shakespeare Graham Holderness,2001 Contains essays on Shakespeare published in books and journals between 1985 and 1997 Charting an Asian Trajectory for Literacy Education Su Li Chong,2021-03-14 Weaving outwards from a centripetal force of biographical stances this book presents the collective perspectives of literacy researchers from Brunei China Hong Kong Malaysia Singapore the Philippines and Taiwan It represents the first all Asian initiative to showcase the region's post colonial multilingual and multicultural narratives of literacy education This book provides a much needed platform that initiates important conversations about literacy as a sociocultural practice in a region that is both

challenged and shaped by sociocultural influence unique to Asia's historical and geopolitical trajectory. Driven by the authors' lived experiences of becoming literate as well as their empirical research work in later years, each chapter brings decades of biographical narratives and collective empirical research findings to bear. Within the book are negotiations about literacy across and within home and school contexts, transactions of literature text and reader, and considerations of the literacy policy/practice nexus. These trajectories, while divergent in their issues, come together as shared lived experience located in local contexts, considered through global perspectives. As Asia looks set to become the 21st century's new economic and labour force, the need to understand the sociocultural milieu of this region cannot be understated. This book on literacy education in Asia contributes to the larger narrative.
