Setting the Moral Compass Cheshire Calhoun,2004 Setting the Moral Compass brings together the largely unpublished writings of 19 women moral philosophers whose work has contributed to the re setting of the compass of moral philosophy since the 1980s

Critical Thinking and Language Tim John Moore,2011-10-13 This book clarifies the idea of critical thinking by investigating the critical practices of academics across a range of disciplines Drawing on key theorists Wittgenstein Geertz Williams Halliday and using a textographic approach the book explores how the concept of critical thinking is understood by academics and also how it is constructed discursively in the texts and practices they employ in their teaching Critical thinking is one of the most widely discussed concepts in debates on university learning For many the idea of teaching students to be critical thinkers characterizes more than anything else the overriding purpose of higher education But whilst there is general agreement about its importance as an educational ideal there is surprisingly little agreement about what the concept means exactly Also at issue is how and what students need to be taught in order to be properly critical in their field This searching monograph seeks answers to these important questions

Introducing Ethics Justin P. McBrayer,Peter J. Markie,2014 Introducing Ethics A Critical Thinking Approach with Readings combines guiding commentary and questions with a rich selection of concise carefully edited and accessible readings on ethical theory and contemporary moral issues This unique introduction shows students how to do philosophy by first analyzing texts identifying ethical positions and the arguments that support them and then evaluating the truth of those positions and the soundness of the arguments In doing so it provides students with a uniquely engaging introduction to ethics that also hones their critical thinking skills FEATURES A unique Unit 1 gives students the conceptual tools to do philosophy with coverage of logic arguments moral reasoning and reading and writing philosophy Extensive coverage of the three main areas of ethics metaethics normative ethics and applied ethics addresses issues often ignored by other texts including ethics vs science moral responsibility moral vs legal issues torture terrorism and more Unit and chapter introductions outline major themes and issues and explain why they matter Reading questions precede the essays and focus students studying on key points while discussion questions follow the readings and help students move into the evaluation phase Argument Reconstruction Exercises after each reading provide practice in identifying the premises and conclusions in the essays An Instructor s Manual with Test Bank on CD is available to adopters A Companion Website at www.oup.com/us/mcbrayer provides all the material contained on the CD along with student resources
