How Does Social Science Work? Paul

Diesing,1992-03-15 The culmination of a lifetime spent in a variety of fields sociology anthropology economics psychology and philosophy of science How Does Social Science Work takes an innovative sometimes iconoclastic look at social scientists at work in many disciplines It describes how they investigate and the kinds of truth they produce illuminating the weaknesses and dangers inherent in their research At once an analysis a critique and a synthesis this major study begins by surveying philosophical approaches to hermeneutics to examine the question of how social science ought to work It illustrates many of its arguments with untraditional examples such as the reception of the work of the political biographer Robert Caro to show the hermeneutical problems of ethnographers The major part of the book surveys sociological political and psychological studies of social science to get a rounded picture of how social science works Paul Diesling warns that social science exists between two opposite kinds of degeneration a value free professionalism that lives only for publications that show off the latest techniques and a deep social concern that uses science for propaganda He argues for greater self awareness and humility among social scientists although he notes that some social scientists will angrily reject the thought that their personality affects their research in any way This profound and sometimes witty book will appeal to students and practitioners in the social sciences who are ready to take a fresh look at their field An extensive bibliography provides a wealth of references across an array of social science disciplines

Critique as Social Practice Robin

Celikates,2018-05-08 Can critical theory diagnose ideological delusion and false consciousness from above or does it have to follow the practices of critique ordinary agents engage in This book argues that we have to move beyond this dichotomy which has led to a theoretical impasse Whilst ordinary agents engage in complex forms of everyday critique it must remain the task of critical theory to provide analysis and critique of social conditions that obstruct the development of reflexive

capacities and of their realization in corresponding practices of critique Only an approach that is at the same time non paternalistic pragmatist and dialogical as well as critical will be able to realize the emancipatory potential of the Frankfurt School tradition of critical theory in radically changing social circumstances The translation of this work was funded by Geisteswissenschaften International Translation Funding for Humanities and Social Sciences from Germany a joint initiative of the Fritz Thyssen Foundation the German Federal Foreign Office the collecting society VG WORT and the B rsenverein des Deutschen Buchhandels German Publisher Booksellers Association
