Taking Rational Trouble Over the Mysteries Nicola Hoggard Creegan, Andrew Shepherd, 2013-07-29 How can one believe in an age of doubt How can we name the mystery of God in human words Does nature speak of the glory of God Does science undermine faith Is the problem of evil unanswerable In this volume scientists theologians philosophers as well as a historian and social scientist take seriously the challenge of knowing and speaking about God in an age of doubt and challenge All New Zealand writers the authors reflect a variety of styles inputs and assumptions from down under Some look to answer new atheists directly others point out links between belief and unbelief in any age There are essays that show us new ways of reading old texts Scientists reflect on nature its signs and its obscurity We are confronted also with the mixed picture of belief and unbelief that the last few hundred years reveals to us Most of these essays have come out of seminars and conferences put on by TANSA Theology and the Natural Sciences in Aotearoa a forum for discussion and interpretation amongst scientists and theologians in New Zealand

Basketball and Philosophy Jerry L. Walls, Gregory Bassham, 2007-03-09 What can the film Hoosiers teach us about the meaning of life How can ancient Eastern wisdom traditions such as Taoism and Zen Buddhism improve our jump shots What can the Zen Master Phil Jackson and the Big Aristotle Shaquille O'Neal teach us about sustained excellence and success Is women's basketball better basketball How ethically should one deal with a strategic cheater in pickup basketball With NBA and NCAA team rosters constantly changing what does it mean to play for the same team What can coaching legends Dean Smith Rick Pitino Pat Summitt and Mike Krzyzewski teach us about character achievement and competition What makes basketball such a beautiful game to watch and play Basketball is now the most popular team sport in the United States each year more than 50 million Americans attend college and pro basketball games When Dr James Naismith the inventor of basketball first nailed two peach baskets at the opposite ends of a Springfield Massachusetts gym in 1891 he had little idea of how thoroughly the game would shape American and international culture Hoops superstars such as Michael Jordan LeBron James and Yao Ming are now instantly recognized celebrities all across the planet So what can a group of philosophers add to the understanding of basketball It is a relatively simple game but as Kant and Dennis Rodman liked to say appearances can be deceiving Coach Phil Jackson actively uses philosophy to improve player performance and to motivate and inspire his team and his fellow coaches both on and off the court Jackson has integrated philosophy into his

coaching and his personal life so thoroughly that it is often difficult to distinguish his role as a basketball coach from his role as a philosophical guide and mentor to his players In *Basketball and Philosophy* a Dream Team of twenty six basketball fans most of whom also happen to be philosophers proves that basketball is the thinking person's sport They look at what happens when the Tao meets the hardwood as they explore the teamwork patience selflessness and balanced and harmonious action that make up the art of playing basketball

Practically Profound James H. Hall, 2005-02-25 Do you think that philosophy is an activity for old men in sandals with long white beards Or people who sit under trees and wait to be struck on the head by apples If so then you owe it to yourself to explore the insights of this book In conversational yet artful prose James H Hall reveals the many ways that you can actually enjoy and use philosophy in the course of your everyday experience Doing philosophy involves critically examining key concepts presuppositions and implications that are in play across the entire range of human inquiry *Practically Profound* introduces the enterprise in three basic areas knowledge and belief epistemology human nature ontology and the good life ethics Emphasizing experience based arguments the book demonstrates techniques that readers of all ages can use to enhance their own understanding of themselves and their world This book is ideally suited to any introductory course in philosophy that takes a problems based approach as well as to general readers interested in putting philosophy to work in their everyday lives

*Twilight Zones* Susan Bordo, 2023-09-01 Considering everything from Nike ads emaciated models and surgically altered breasts to the culture wars and the O J Simpson trial Susan Bordo deciphers the hidden life of cultural images and the impact they have on our lives She builds on the provocative themes introduced in her acclaimed work *Unbearable Weight* which explores the social and political underpinnings of women's obsession with bodily image to offer a singularly readable and perceptive interpretation of our image saturated culture As it becomes increasingly difficult to distinguish between appearance and reality she argues we need to rehabilitate the notion that not all versions of reality are equally trustworthy Bordo writes with deep compassion unnerving honesty and bracing intelligence Looking to the body and bodily practices as a concrete arena where cultural fantasies and anxieties are played out she examines the mystique and the reality of empowerment through cosmetic surgery Her brilliant discussion of sexual harassment reflects on the Clarence Thomas Anita Hill controversy as well as the film *Disclosure* She suggests that sexuality although one of the mediums of harassment is not its essence and she calls for the recasting of harassers as bullies rather than sex fiends Bordo also challenges the continuing marginalization of feminist thought in particular the failure to read feminist work as cultural criticism Finally in a powerful and moving essay called *Missing Kitchens* written in collaboration with her two sisters Bordo explores notions of bodies place and space through a recreation of the topographies of her childhood Throughout these essays Bordo avoids dogma and easy caricature Consistently and on many levels she demonstrates the profound relationship between our lives and our theories our feelings and our thoughts Considering everything from Nike ads emaciated models and surgically altered breasts to the culture wars

and the O J Simpson trial Susan Bordo deciphers the hidden life of cultural images and the impact they have on our lives She builds on the provocation Movies and the Meaning of Life Kimberly A. Blessing, Paul Tudico, 2013-12-01 The meaning of life is the most urgent of questions said the existentialist thinker Albert Camus And no less a philosopher than Woody Allen has wondered How is it possible to find meaning in a finite world given my waist and shirt size Movies and the Meaning of Life looks at popular and cult movies examining their assumptions and insights on meaning of life questions What is reality and how can I know it The Truman Show Contact Waking Life How do I find myself and my true identity Fight Club Being John Malkovich Boys Don't Cry Memento How do I find meaning from my interactions with others Pulp Fiction Shadowlands Chasing Amy What is the chief purpose in life American Beauty Life is Beautiful The Shawshank Redemption and How ought I live my life Pleasantville Spiderman Minority Report Groundhog Day With All Your Mind Michael L.

Peterson, 2001-10-29 With All Your Mind makes a compelling case for the value of thinking deeply about education in America from a historically orthodox and broadly ecumenical Christian point of view Few people dispute that education in America is in a state of crisis But not many have posed workable solutions to this serious problem Michael Peterson contends that thinking philosophically about education is our only hope for meaningful progress In this refreshing book he invites all who are concerned about education in America to participate in his study which analyzes representative theories and practical strategies that reveal the power of Christian ideas in this vital area *The Journal of Philosophy*, 1993 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association, 1994 List of members in v 1

**Philosophy in a Feminist Voice** Janet A. Kourany, 1997-12-29 In this book Janet Kourany offers an antidote to the pervasive and pernicious strains in Western philosophy that discount women Most areas of Western philosophy tend not only to ignore women but also to perpetuate long standing antifeminine biases of the society as a whole It does not have to be this way Rather than be part of the problem philosophy can be a powerful force for much needed social change In this collection of essays by some of the most noted feminist philosophers Kourany showcases ideas on the newest work of Western philosophy that is benefiting women as well as men Included here are articles by Eileen O'Neill Louise Antony Virginia Held Susan Okin Carolyn Korsmeyer Nancy Frankenberry Lorraine Code Janet Kourany Andrea Nye and Susan Bordo all of whom show further directions in which philosophy ought to proceed This book demonstrates that feminist philosophy is not a separate area of philosophy that can safely be ignored by philosophers not in it Rather it relates to at least most of the major areas of philosophy and its gains will stand to benefit all philosophers no matter what their field **The Philosophical Athlete** Heather Lynne Reid, 2002 All athletes experience victory and defeat but how many truly learn from the experience of sport For ancient Greek philosophers sport was an integral part of education Today athletics programs remain in schools but we face a growing gap between the modern sports experience and enduring educational values This book seeks to bridge

that gap by advocating a philosophical approach to the sports experience Combining issues and ideas from traditional philosophy with contemporary analyses of sport and applied thinking activities this book invites athletes to learn about life from their experience of sport The text works its way from internal reflection to social interaction by addressing four important topics self discovery responsibility respect and citizenship This sequence is important because authentic self knowledge is an essential foundation for effectively dealing with the personal and social challenges faced by philosophical athletes Reid discusses specific issues such as violence racism and performance enhancing drugs in their relevant contexts although philosophical athletes focus on the big picture approaching each issue from a complete vision of themselves their moral commitments and their social roles Athletes as diverse as the teenage college recruit and the aging weekend warrior will gain insight into their sports experience and into their lives This philosophical approach maximizes what we can learn from sport and gives us the best chance for leading better lives because of it

### **Africa in Contemporary Perspective**

Takyiwaa Manuh,Esi Sutherland-Addy,2013-12-29 An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s Unfortunately hardly any readers exist which bring together a body of knowledge on the themes issues and debates which inform and animate research and teaching in African Studies particularly on the African continent This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised but driven from internal understandings of life and prospects in Africa Dominant representations and perceptions of Africa usually depict a continent in crisis Rather than buying into external representations of Africa with its lacks and aspirations for Western modernities we insist that African scholars in particular should be in the forefront of promoting understanding of the pluri lingual overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge Continuing and renewed interest in Africas resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africas people

[The Contents of Perceptual Experience: A Kantian Perspective](#) Anna Tomaszewska,2014-10-08 The book addresses the debate on whether the representational content of perceptual experience is conceptual or non conceptual by bringing out the points of comparison between Kant s conception of intuition and the contemporary accounts of non conceptual content encountered in the writings of G Evans Ch Peacocke F Dretske T Crane M G F Martin and others Following R Aquila s reading of Kant s conception of representation the author argues that intuition Anschauung intuitus provides the most basic form of intentionality pre conceptual reference to objects which underlies the acts of conceptualization and judgment The book advances an interpretation of Kant s theory of experience in the light of such questions as Does conscious perceptual experience of objects require that subjects possess concepts of these objects Do the contents of experience differ from the contents of beliefs or judgments And if they do what accounts for this difference These questions take us to the most puzzling philosophical topic of the relation between mind and world Anna Tomaszewska argues that this relation does not involve conceptual capacities alone but also on the most basic level of perceptual experience pre cognitive sensible intuition enabling relatedness to objects that remains uninformed by concepts In a nutshell on her interpretation Kant can be taken to subscribe to the view that perceptual cognition does not have rational underpinnings
