**Academic Writing, Real World Topics** Michael

Rectenwald, Lisa Carl, 2015-05-28. *Academic Writing Real World Topics* fills a void in the writing across the curriculum textbook market. It draws together articles and essays of actual academic prose as opposed to journalism; it arranges material topically as opposed to by discipline or academic division, and it approaches topics from multiple disciplinary and critical perspectives. With extensive introductions, rhetorical instruction, and suggested additional resources accompanying each chapter, *Academic Writing Real World Topics* introduces students to the kinds of research and writing that they will be expected to undertake throughout their college careers and beyond. Readings are drawn from various disciplines across the major divisions of the university and focus on issues of real import to students today, including such topics as living in a digital culture, learning from games, learning in a digital age, living in a global culture, our post-human future, surviving economic crisis, and assessing armed global conflict. The book provides students with an introduction to the diversity, complexity, and connectedness of writing in higher education today. Part I, a short Guide to Academic Writing, teaches rhetorical strategies and approaches to academic writing within and across the major divisions of the academy. For each writing strategy or essay element treated in the Guide, the authors provide examples from the reader or from one of many resources included in each chapter's Suggested Additional Resources. Part II, *Real World Topics*, also refers extensively to the Guide. Thus, the Guide shows student writers how to employ scholarly writing practices as demonstrated by the readings, while the readings invite students to engage with scholarly content.

**The Structure of Philosophical Discourse** Kyle Lucas,Sarah Lucas,2024-03-29 This book builds on existing work in genre analysis and move analysis in English for Specific Purposes ESP and applies this new framework to academic philosophical discourse offering new insights into how ESP traditions can elucidate shifts in language conventions across disciplinary contexts The volume begins by surveying the state of the art in English for Specific Purposes and genre theory as well as other genre theory paradigms before turning the focus on move analysis Lucas and Lucas seek to maximize the potential of move analysis to precisely operationalize functional units of discourse by implementing a cognitive theory of genre grounded in frame semantics Using the case of academic research articles in philosophy the authors demonstrate how this framework can reveal distinctive dimensions unique to philosophical discourse and in turn how such an approach might be applied more broadly to examine nuances in language across disciplines and inform ESP research in the future This book will appeal to students and researchers in English for Specific Purposes discourse analysis academic writing applied linguistics and rhetoric and composition

**A Symphony of Life** Dr. Simin Redjali, 2013-08-13 *A Symphony of Life: Triumph of Education over Adversity* A Journey of a Persian American Woman Through War, Revolution, Love and Freedom. The story of Dr. Redjali, a well-known public figure in Iran in the mid-twentieth century, begins in Iran, Persia, during the time of Iran's westernization and modernization spearheaded by Reza Shah Pahlavi at the beginning of the 20th century and follows the social, historical, political, turmoil and educational events of the past seventy years in Iran, in Europe and the United States. Like a symphony, this book is composed of four movements. Through these movements, the author weaves the notes of her life into melodies of social and historical changes, upheavals, wars, revolutions and peace. She traces her own transition from being part of Iran's ruling class to her job-seeking struggles in the United States. This provides the reader through the author's firsthand experience with many of the great events of the 20th century: a personal account of Iran's contemporary history and politics, education along with an eye-witness account of the United States civil rights movement, the women's rights struggle, other important issues related to psychology and mental health and personal issues such as surviving cancer in the United States. Her story encompasses shifts in the tempos and melodies of life along with a leitmotif of love of family, individual freedom and unwavering hope for humanity. The book illustrates the personal approach the author has adopted throughout her life in coping with and overcoming every adversity through using the power of education. It's also a testament to a woman's ability to balance all the facets of her life: career, demands, family responsibilities, emotional needs and the quest to help others. This book, with historical pictures, uniquely covers the period between the rise and the fall of the Pahlavi dynasty, the rise of the Islamic Republic of Iran and the author's personal life in Europe and the United States. It is supported by extensive research and expresses a great hope that the longstanding cultural misunderstanding and miscommunication between Iran and the West will soon be replaced with a mutual respect which celebrates the power of individual freedom and democracy.
