Metaliterate Learning for the Post-Truth World Thomas P. Mackey, Trudi E. Jacobson, 2019-07-03 Foreword by Troy

A Swanson Metaliteracy Jacobson and Mackey's revolutionary framework for information literacy is especially well suited as a tool for ensuring that learners can successfully navigate the proliferation of fake news questionable content and outright denialism of facts in today's information morass. Indeed, it is starkly evident that the competencies knowledge and personal attributes specific to metaliterate individuals are critical. Digital literacy and traditional conceptions of information literacy are insufficient for the significant challenges we currently face. This book examines the newest version of the Metaliteracy Goals and Learning Objectives including the four domains of metaliterate learning as well as the relationship between metaliteracy and the ACRL Framework for Information Literacy for Higher Education. Featuring contributions from a variety of information literacy instructors educators librarians and faculty, the chapters in this book discuss the social political and ethical dimensions of information creation distribution and use. Use case studies demonstrate how metaliteracy guides learners to read online information with a critical eye, apply metacognitive thinking to the consumption of all information and make purposeful and responsible contributions to the social media ecosystem as active participants. Examine when images are taken out of context and paired with misleading text, a prevalent feature of the misinformation frequently shared via social media, and situate metaliteracy in such contexts such as the academic library, a science class, fiction writing, digital storytelling and a theater arts course. Metaliteracy is a powerful model for preparing learners to be responsible participants in today's divisive information environment, and this book showcases several teaching and learning practices that have already proven effective.

Bloggers on the Bus Eric Boehlert, 2009-05-19. Ever since radio entered the American private home, technology has shaped political campaign strategy. Radio brought candidates more intimately and vividly into citizens' lives than newspapers could. The televised presidential debate of 1960, in which a strapping John F. Kennedy embarrassed a clammy Richard M. Nixon, was technology's next coup. In the last decade, though, it is the internet that has radically changed the way that candidates campaign. Social networking sites, YouTube, and blogs have become important vehicles for political activism. And the grand editorial and political power that this group, the netroots, as bloggers call it, wields has never been more apparent than in the groundbreaking 2008 presidential election. Bloggers on the Bus traces the online events that rocked the campaign trail and reveals the untold stories of the internet activists who made them all possible. In the tradition of Timothy Crouse's classic The Boys on the Bus, Bloggers on the Bus investigates the cutting edge of liberal politics to reveal the stories and scandals at its very heart. The cast includes everyone from former professional rock saxophonist John Amato, who years before YouTube changed blogging forever by unleashing his TiVo and figuring out how to post TV clips online, to sixty-something Oakland housewife Mayhill Fowler, who joined the Huffington Post as a volunteer journalist and went on to break two of the biggest stories of the Democratic primary. Boehlert tells the story of acerbic West Coast blogger Digby, whose gender shocked the male-dominated blogosphere, as well as that of graphic tech Philip de Vellis, who culture-jacked an iconic Apple ad in order to create the infamous Vote Different video that influenced the Democratic primary. These are just a

few of the bloggers pioneering the major shift in today's media who are profiled in *Bloggers on the Bus*. All of their efforts have set off an industry wide debate about journalism and privacy and have permanently altered the character of campaign strategy. Using the 2008 presidential race as a dramatic backdrop, Boehlert details the myriad ways these bloggers influenced both the candidates and their campaigns while also chronicling the bitter blogger civil war that erupted during the contentious Democratic primary season. Offering unprecedented portraits of these new power brokers, *Bloggers on the Bus* goes behind the scenes to chronicle a media and political rebellion in the making.

Managing Television News B. William Silcock, Don Heider, Mary T. Rogus, 2009-03-04 *Managing Television News* provides a practical introduction to the television news producer, one of the most significant and influential roles in a newscast. Their book provides a strategic approach to producing newscasts and serves as an in-depth guide to creating quality audience-friendly newscasts working within the realistic limitations of most newsrooms. Filled with real-world examples and advice from news directors, producers, and anchors currently in the business, and photographs illustrating the varied perspectives in the position, *Managing Television News* provides critical skill sets to help resolve ethical dilemmas, as well as keen and fresh insights on how to win the ratings without compromising news quality. Career concerns are also addressed. This resource is a pioneering book for the professional television newsroom and the individual reader interested in starting or expanding a producing career. Just Like Us Caitlin E. Lawson, 2022-12-09 In *Just Like Us: Digital Debates on Feminism and Fame*, Caitlin E. Lawson examines the rise of celebrity feminism, its intersections with digital culture, and its complicated relationships with race, sexuality, capitalism, and misogyny. Through in-depth analyses of debates across social media and news platforms, Lawson maps the processes by which celebrity culture, digital platforms, and feminism transform one another. As she analyzes celebrity-centered stories ranging from the Fappening and the digital attack on actress Leslie Jones to stars' activism in response to MeToo, Lawson demonstrates how celebrity culture functions as a hypervisible space in which networked publics confront white feminism, assert the value of productive anger in feminist politics, and seek remedies for women's vulnerabilities in digital spaces and beyond. *Just Like Us* asserts that together, celebrity culture and digital platforms form a crucial discursive arena where postfeminist logics are unsettled, opening up more public, collective modes of holding individuals and groups accountable for their actions.

Shameful Bodies Michelle Mary Lelwica, 2017-01-12 What happens when your body doesn't look how it's supposed to look or feel how it's supposed to feel or do what it's supposed to do Who or what defines the ideals behind these expectations How can we challenge them and live more peacefully in our bodies Shameful Bodies Religion and the Culture of Physical Improvement explores these questions by examining how traditional religious narratives and modern philosophical assumptions come together in the construction and pursuit of a better body in contemporary western societies Drawing on examples from popular culture such as self help books magazines and advertisements Michelle Mary Lelwica shows how these narratives and assumptions encourage us to go to war against our bodies to fight fat triumph over disability conquer chronic pain and illness and defy aging Through an ethic of conquest and conformity the culture of physical improvement trains us not only to believe that all bodily processes are under our control but to feel ashamed about those parts of our flesh that refuse to comply with the cultural ideal Lelwica argues that such shame is not a natural response to being fat physically impaired chronically sick or old Rather body shame is a religiously and culturally conditioned reaction to a commercially fabricated fantasy of physical perfection While Shameful Bodies critiques the religious and cultural norms and narratives that

perpetuate external and internalized judgment and aggression toward shameful bodies it also engages the resources of religions especially feminist theologies and Buddhist thought practice to construct a more affirming approach to health and healing an approach that affirms the diversity fragility interdependence and impermanence of embodied life
