## INTRODUCTION

The N4418 is a Hi-Fi stereo recorder featuring reel discs, 3 speeds and 4 tracks; it may be used when it is in a horizontal or in a vertical position.

The recorder is suited for making mono and stereo recordings, for playback, multiple, echo, before/after-tape monitoring and for recuing during recording.

The Hi-Fi amplifier built W 60 - C 1 B) can also be used separately. The tape deck is then switched off.

The recorder is provided with "tip-touch" operating controls. A button must be depressed to energise an electromagnet, thus the recorder is set to the position desired, the depressed button remaining illuminated.

The recorder is equipped with 3 heads: a recording head, a playback head and an erase head.

Three motors are used: an electronically controlled DC motor to drive the capstan and the 2 DC motors for fast windings and driving the reel discs.

Besides, the recorder includes a counter with a reset button and an adjustable tape-stop device, an automatic stop at the end of the tape, tape tension comparators to achieve that the tape is wound evenly, built-in acoustic loudspeaker horns and the facility to use an endless tape, to connect a headphones and a remote-control device.

Both the audio-section and the control section consist of plug-in p.c.v. boards (so-called functional units).
