working class reformer with a deep disdain for Life's conservatism and commercialism. In fact, her work often subverted Life's typical representations of women workers and minorities. Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics: birth control, vivisection, labor unions, and Japanese American internment during the Second World War. Her dual role as reformer and photojournalist made her a desirable commodity at Life in the late 1930s and early 40s, but this role became untenable in Cold War America when her career was cut short. Today Mieth's life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth-century photojournalism. *Women Workers and Race in LIFE Magazine* draws upon a rich array of primary sources, including Mieth's unpublished memoir, oral histories, and labor archives. The book seeks to unravel and understand the multi-layered, often contested stories of the photographer's life and work. It will be of interest to scholars of photography history, women's studies, visual culture, and media history.
