Underground Protestantism in Sixteenth Century Spain Frances Luttikhuizen, 2016-12-05 Frances Luttikhuizen chronicles the arrival reception and suppression of Protestant thought in sixteenth century Spain referred to at that time as Lutheranism It opens with several chapters describing the socio political religious context that prevailed in Spain at the beginning of the sixteenth century and the growing trend to use the vernacular for parts of the Mass as well as for

catechizing the populace Special attention is given to the forerunners that is the early alumbrado deixados the role of Cardinal Cisneros and the impact of Erasmus and Juan de Valdes etc The use of archival material provides new details regarding the historical framework and the spread of evangelical thought in sixteenth century Spain These dispatches and trial records greatly enrich the main body of the work which deals with the arrival and confiscation of evangelical literature the attitude of Charles V and Philip II towards religious dissidents and the severe persecution of the underground evangelical circles at Seville and Valladolid Special attention is given to the many women involved in the movement The recurrent mention of the discovery and confiscation of prohibited literature shows how books played an important role in the development of the movements The final chapters focus on the exiles and their contributions the persecution of foreigners and the years up to the abolition of the Inquisition The work concludes with the efforts made in the nineteenth century to rediscover the history of the persecuted sixteenth century Spanish Protestants and their writings

Opera in the Tropics Rogério Budasz, 2019-03-22 Opera in the Tropics is an engaging exploration of theater with music in Brazil from the mid 1500s to the early 1820s Author Rog rio Budasz delves into the practices of the actors singers poets and composers who created and performed Jesuit moral plays Spanish comedias and Portuguese vernacular operas and entremezes during the colonial period as well as the Italian operas that celebrated the new independent nation in 1822 A Brazilian producer claimed in 1825 that the goal of music theater was to instruct entertain and distract the population Budasz argues that this threefold goal had in fact been present throughout the colonial period in different combinations and with different purposes at the hands of missionaries intellectuals bureaucrats political leaders and cultural producers While Budasz demonstrates a continuity from Portuguese theatrical practices primarily through the circulation of artists and repertory he also examines a number of localized departures from the metropolitan model particularly in the ethnic and gender profile of theatrical workers in the modifications determined by local tastes priorities and materials and in the political use of theater as an ideological and civilizing tool within the paradoxical context of a slave society An eye opening narrative of the transformations and uses of a colonial art form Opera in the Tropics will be essential reading for all interested in the music and theater in Iberian and Latin American culture

Cervantes and the Material World Carroll B. Johnson, 2000 Cervantes and the Material World reveals a recurrent preoccupation with the clash of two different economic systems a reenergized feudalism and an incipient capitalism Overturning the common assumption that Don Quixote Sancho Panza and myriad other colorful

characters carry out their adventures in a timeless social milieu Johnson demonstrates how their perspectives and experiences are shaped by the events and crises of their immediate historical context
