South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

A Military History of Modern South Africa Ian van der Waag, 2018-03-14 The story of a century of conflict and change from the Second Boer War to the anti-apartheid movement and the many battles in between. Twentieth-century South Africa saw continuous, often rapid and fundamental socioeconomic and political change. The century started with a brief but total war. Less than ten years later Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa. The Union Defence Force, later the SADF, was deployed during most of the major wars of the century as well as a number of internal and regional struggles, the two world wars, Korea, uprising and rebellion on the part of Afrikaner and black nationalists and industrial unrest. The century ended as it started with another war. This was a flash point of the Cold War which embraced more than just the subcontinent and lasted a long thirty years. The outcome included the final withdrawal of foreign troops from southern Africa, the withdrawal of South African forces from Angola and Namibia and the transfer of political power away from a white elite to a broad-based democracy. This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars, rebellions, uprisings and protests of the period. It deals in the first instance with the evolution of South African defence policy, the development of the armed forces and the people who served in and commanded them. It also places the narrative within the broader national past to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars. Practise and Pleading

Under the Code Henry Whittaker,1854 Reflections on the Complexities of the Covid-19 Pandemic Shadrack B. Ramokgadi,Mbekezeli C. Mkhize,2022-12-31 This book offers an original and timeous snapshot of contemporary lines of argument from various authors in the Global South on the Covid 19 pandemic as a complex emergency at the height of the pandemic At the time of writing there were various levels of uncertainties from different countries citizens the public and private sectors industries and economies who were in disarray The book traces the origins of the Covid 19 pandemic in the province of Wuhan in China the challenges and the responses from a multiplicity of countries particularly from the Global South Of particular importance the book notes that vaccine uncertainty limiting the spread of the virus and loss of life and employment were some of the major challenges that these governments and citizens were confronted with Also the sizes of various economies lead to various challenges that the abovementioned governments shouldered The contributors shed light on various aspects related to the Covid 19 pandemic from various countries in the Global South and include but were not limited to securitised lockdowns the use of militaries and complete closures of national and sometimes fragile economies as well as overburdened health systems These are just some dire consequences of Covid 19 on the public and private sector industries and economy The book emphasises that despite myriad challenges reported there are various lessons that can be learnt in terms of how the countries responded to the pandemic and in terms of how future pandemics can be handled Finally this is an interesting piece of work wherein contributors as a collective seek to shed light with regards to the unique perspectives from the Global South and at the same time give some guidance related to their specific areas of focus
