assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis

Booyesen, 2015-10-01 As Jacob Zuma moves into the twilight years of his presidencies of both the African National Congress ANC and of South Africa this book takes stock of the Zuma led administration and its impact on the ANC *Dominance and Decline* The ANC in the Time of Zuma combines hard hitting arguments with astute analysis Susan Booyesen shows how the ANC has become centred on the personage of Zuma and that its defence of his extremely flawed leadership undermines the party's capacity to govern competently and to protect its long term future Following on from her first book *The African National Congress and the Regeneration of Power* 2011 Booyesen delves deeper into the four faces of power that characterise the ANC Her principal argument is that the state is failing as the president's interests increasingly supersede those of party and state Organisationally the ANC has become a hegemon riven by factions as the internal blocs battle for core positions of power and control Meanwhile the Zuma controlled ANC has witnessed the implosion of the tripartite alliance and decimation of its youth women's and veterans leagues Electorally the leading party has been ceding ground to increasingly assertive opposition parties And on the policy front it is faltering through poor implementation and a regurgitation of old ideas As Zuma's replacements start competing and succession politics take shape Booyesen considers whether the ANC will recover from the damage wrought under Zuma's reign and attain its former glory Ultimately she believes that while the damage is irrevocable the electorate may still reward the ANC for transcending the Zuma years This is a must have reference book on the development of the modern ANC With rigour and incisiveness Booyesen offers scholars and researchers a coherent

framework for considering future patterns in the ANC and its hold on political power *The Palgrave International Handbook of Gender and the Military* Rachel Woodward, Claire Duncanson, 2017-06-27 The Palgrave International Handbook of Gender and the Military provides a comprehensive overview of the multiple ways in which gender and militaries connect International and multi disciplinary in scope this edited volume provides authoritative accounts of the many intersections through which militaries issues and military forces are shaped by gender The chapters provide detailed accounts of key issues informed by examples from original research in a wealth of different national contexts This Handbook includes coverage of conceptual approaches to the study of gender and militaries gender and the organisation of state military forces gender as it pertains to military forces in action transitions and transgressions within militaries gender and non state military forces and gender in representations of military personnel and practices With contributions from a range of both established and early career scholars The Palgrave International Handbook of Gender and the Military is an essential guide to current debates on gender and contemporary military issues *The South African Response to COVID-19* Pieter Fourie, Guy Lamb, 2023-03-28 This book analyses the first two years of South Africa s response to the COVID 19 epidemic from its emergence in early 2020 Drawing on the perspectives of a range of public health experts economists and other social scientists and development practitioners this book argues that understanding this early response will be essential to moderate and improve future policy thinking around health governance and epidemic readiness This book provides a systemic analysis of not only the epidemiological progression of COVID 19 in South Africa but also the socio political factors that will be key in determining the future of the country as a whole including health system challenges socio economic disparities and inequalities and variable often contradictory and tardy policy responses Overall this book exposes Manichean thinking and the spurious policy dichotomies that pitch public health against human rights economic recovery against viral vector control and science against ideology with lessons not just for South Africa but also for elsewhere on the African continent and beyond This book will be perfect for researchers and practitioners across Public Health Health Policy and Global Health as well as those with an interest in South African politics and development more generally The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
