Anyone Can Cook, Even the Rowers

TITLE

INTRO

They tell me my name is French for "oarsman," that I have been rowing my way uphill since I was born. They told me to stay in my lane, that I had no idea what I was doing with food. They didn't believe me about my sense of taste or smell, that I knew that one day I would be a chef until it happened.

It was a crisp fall day. Leaves scattered across the road, cushioning the footsteps of people bringing fresh baguettes home for dinner or breakfast. It is hard not to fall in love with a city like this, the way every building, street, and light can hold the potential of romance.

I saw him from the street. A garbage boy, clumsy and awkward with untied shoes and bright red hair. He was a walking disaster, unobservant of the world or people around him, barely able to hold a knife or spice a dish. You either thought him a fool, or you pitied him for not being the things he should have been. And yet, by the end of the day, he would be my closest friend who would help me achieve my dreams.

My friend and I could not speak to each other, but we had our own way of communicating, connected only by the foods we made, the relationship we learned to build in the kitchen. Most people would credit my success to impressing a food critic, making a country dish of sliced courgettes and aubergines stewed to perfection, but that is only half truth. I had the help of my patient friends, inherent sense of smell, and plenty of mistakes along the way. They call me a rower, and so I continue to row.

Personal Narrative Guidelines

DeMethra LaSha Bradley, Robert Nash

Personal Narrative Guidelines:

Me-Search and Re-Search DeMethra LaSha Bradley, Robert Nash, 2011-03-01 From the Foreword Robert and DeMethra's book *Me Searching and Re Search* has caught my fancy in a number of ways. The book title cleverly captures what SPN is all about: it is about self narratives, the 'me search' part, and about scholarly meaning making, the 're search' part. This eye-catching title also illuminates the authors' intent to turn this seemingly intimidating method of self inquiry into something very accessible and doable. Their jargon-free language is friendly and inviting. Although they don't intend to make their many methodological tips and tools too prescriptive, their practical suggestions provided in this guide book are indeed helpful and useful. I believe that Robert and DeMethra have demonstrated admirable talents as effective educators by unpacking the complex method of SPN writing into bite-sized steps. I am fully convinced that the steps will help both novices and the experienced researcher to reach the ultimate height of producing engaging and scholarly significant SPN's. The book is also fun to read. The authors intersperse throughout their own SPN's pedagogical insights from their doing and teaching and real-life stories in order to illustrate the methodological process challenges and triumphs.

QUALITATIVE RESEARCH (A Handbook Guide for Novice Researcher) Dwi Poedjiastutie, 2021-11-04 Qualitative approaches are now growing its popularity among novice researchers. Thus they need to be well informed step by step in conducting the qualitative studies. Particularly this book will benefit students who keen to focus on finding solution on the language related issues and concerns. Each approach is elaborated in detail manner so that readers will possess comprehensible input of what and when a particular approach will be appropriately selected and employed. The detail characteristics of each approach in qualitative have been discussed in many research methodology books published earlier. However this book can be used as the supplementary resources for those who specifically focus on the qualitative approach when they are dealing for the first time and more specifically for the language research and its related issues. The second feature is the example of each approach. Since qualitative approaches have a lot of similarities the researchers are supposed to have careful thought when selecting a particular approach. This can be very difficult for novice researchers. Therefore in order to guide them selecting the most appropriate approach for their study the examples of the previous research using similar approach are provided. The examples of the previous research on each particular approach are carefully chosen so that it possibly relates and represents Indonesian contexts. Another distinguished feature of this book is supplied the information on several common fallacies that scholars or novice researcher usually argue about the qualitative approach. For example many novice researchers in Indonesian context still believe that in qualitative approach they are not supposed to use numerical data. That might not be true. The discussion on some fallacies like the above mentioned example hopefully can guide them to have no more doubts of employing qualitative approach.
