

PERSONAL SAFETY AND SECURITY

Each Country Office should conduct a comprehensive security assessment and develop and implement a security strategy and general safety and security policies and procedures. However, every CARE staff member must view safety and security as an individual responsibility and not depend solely on the Country Office's procedures. A staff member will gain a greater sense of security and self-confidence by preparing ahead for a potential incident.

This chapter provides general safety and security guidelines that individual CARE staff members can use. Most of them are common sense measures that are frequently forgotten when in an unfamiliar environment or during crisis. Successfully employing the safety and security measures in this chapter requires resourcefulness and vigilance. It is hoped that by applying these measures within a framework of the Country Office security strategy, CARE staff can prevent safety and security incidents from ever occurring. When they do occur, the well-prepared staff member can take quick and decisive action to minimize the likelihood of injury or damage. This chapter provides information on:
