Kozleski,Antero Garcia,2025-07-18 This book explores how parents became education partners in new and unexpected ways during the COVID pandemic Emerging from a range of research studies it reframes how researchers educators school leaders and policymakers can establish and foster more equitable partnerships with families The authors ultimately argue that COVID schooling erased boundaries between schools and families as families translated decoded and reshaped learning in their living rooms alongside their children Chapters use firsthand accounts by parents and caretakers to contextualize and report on how families managed their lives and the education of their children during the pandemic before exploring the tensions and issues that arose for families which were pandemic caused or the results of educational disparities and inequalities being intensified by the COVID crisis It thus reveals how caregivers struggled with employment and food insecurities as well as issues such as technology access and their children s learning needs Building connections between research and practice it re imagines how families can be education partners discussing how schools can carry families assets into their work on improving schools during the pandemic times of crisis and into the post pandemic future It will appeal to researchers and graduates with interests in educational leadership teacher education sociology of education and the sociology of family and parenting with additional

relevance for teachers and school administrators with interests in education in crises school reform and educational leadership

His Name Was Amy Mable Frank C Newby,2007-07 Take a trip down memory lane and revel in the adventures of little Raz a child of the depression For the young reader it is a chance to live history through the eyes of a child struggling with little Raz as he gets into and out of situations For the young reader it imparts knowledge of living in a world without electricity The teen ager will react to the frustrations and emotions of a young boy living poor working hard and forced to accept the responsibilities of adulthood at an early age The older reader will recall with nostalgia a gentler world of yesteryear Do you recall memories of walking down a country road with the smell of new mown hay and honeysuckle wafting on the breezes It recalls the privations and hardships of a great depression and a world at war It recalls the window flags with their white stars representing young Americans away from home on foreign battlefields while their country was reeling under the burden of wartime rationing Every incident in Amy Mable is true It was experienced by the author in a long and exciting life Treat yourself to a cup of nostalgia

End User Steve Brezenoff,2019-08 The science station sits on asteroid 2035 RAXQ which is about to pass through a radiation belt twelve year old twins Raz and Kiley as well as the other scientists on the station plan to take refuge deep inside the asteroid where they will be safe but immediately they start seeing ghostly figures until it becomes clear that they may be safe from the radiation but not from an artificial intelligence that wants to kill them

Towards Critical Environmental Education Aristotelis S. Gkiolmas,Constantine D. Skordoulis,2020-11-03 This volume discusses theory philosophy praxis and methods in Environmental and Ecological education and considers the junction with the main visions and issues of Critical Pedagogy The volume and its separate chapters address four axes which can also be seen as the guidelines of the content as well as the central objectives of the book The first axis concerns the missing theoretical and practical pieces at this point in time The volume considers the issues that are not included in contemporary Environmental Education and thus deprive it from critical orientations This implies that in Environmental Education very little discussion exists about the political economic racial gender and class issues that in most cases govern the actions of leaders and stake holders The second axis concerns what has been done so far and in what directions This involves descriptions of theoretical approaches or actual applied methodologies in the classroom such as curricula or syllabus used or the kind of actions certain educators have taken to infuse the issues of justice and critical reflection within the Environmental Education teaching agenda The third axis examines proposals It looks at ways to enrich domains of Environmental Education with the argumentations of Critical Pedagogy The fourth axis concerns the way in which proposals can be effectuated This part contains specific methodologies and teaching sequences depicting ways of including major aspects of Critical Pedagogy and Critical Education in Environmental Education Examples are Non anthropocentric ecological approaches in the classroom political activism in the Curricula mixture of field activities and political activities
