Stancer,P.E. Garfinkel,V.M. Rakoff,2012-12-06 to the Clinician Although huge quantities of drugs are dispensed daily by psychiatrists there appears to be insufficient concern about the short and long term effects of these exogenous agents on the recipients our patients Many clinicians have been trained at a time when knowledge of clinical

psychopharmacology was super ficial at best and recent trainees do not necessarily have access to newer con stantly changing relevant information The busy clinician is frequently depen dent upon the limited knowledge dispensed by the drug company representatives and naturally shys away from many of the more esoteric contributions appearing in the literature Because of the foregoing issues the Executive of the Clarke Institute of Psychiatry of the University of Toronto with the financial support of the Ministry of Health of the Government of Ontario organized an inter national symposium on May 14 17 1982 to bring together some of the acknowledged experts in clinical psychopharmacology This book is in part a reflection of that symposium The editors are aware that a contributed volume however tightly edited is not necessarily a textbook Notwithstanding this it was thought to be important to assemble expert opinion on current important issues of immediate concern to the practicing clinician With this in mind the chapters have been organized around five themes Schizophrenia Affective disorders and Anxiety are clearly important since they are the major targets of drug use in psychiatry   **The Essential Guide to Herbal Safety** Simon Y Mills,Kerry Bone,2004-12-23 Winner of American Botanical Council s 2005 James A Duke Botanical Literature Award the Essential Guide to Herbal Safety offers a balanced and objective perspective on the principles of herbal medicine safety as well as the complex challenges relating to self prescribed or professionally prescribed herbal medications and supplements With contributions from leading international practitioners and authorities it contains comprehensive reviews in monograph format of the published safety data for 125 common herbs You ll also find coverage of issues of quality interactions adverse reactions toxicity allergy contact sensitivity and idiosyncratic reactions Provides the most current information on safety issues in herbal medicine Presents authoritative and credible safety information from two experienced herbal practitioners Combines theoretical chapters with 125 well researched monographs making it the most thorough and comprehensive text on the market for herbal safety in practice Provides clear information using the most current evidence based reviews covering factors that influence herb safety including the negative placebo effects nocebo various types of unpredictable effects the basis for interactions between herbs and drugs and quality issues Uses an established grading system for assessing safety in pregnancy and lactation that is realistic and appropriate to herb use Thoroughly critiques the dominant misinformation in the media and medical journals on herb safety issues Contains 83 documented case studies on hepatoxicity and the effects in relation to kava Kava safety is a hot topic Includes two useful appendices detailing herbal references for pregnancy and lactation considerations
