

Play Operation

Your Video Camcorder is capable of playing back recordings made on it, or recordings made in the SP mode on any VHS VCR. The playback picture may be viewed on the electronic viewfinder or on your TV receiver/monitor. To turn off the viewfinder display during playback operation, place the Standby/Normal switch in the STANDBY position. To play back a tape, perform the following steps.

1. Turn on the Camcorder by pressing the Power button.
2. Press the Eject button, and insert the cassette you want to view into the cassette holder.
3. Place the Camera/Playback switch in the PLAYBACK position.
4. Press the Play button to begin playback operation.

Press the F FWD button, while in the playback mode, to visibly search through the recorded material in the forward direction. Press the Play button to return to normal playback operation.

5. Press the Rewind button, while in the playback mode, to visibly search through the recorded material in the reverse direction. Press the Play button to return to the normal playback operation.
7. Press the Pause button, while in the playback mode, to stop action on the screen. Press the Pause button again to return to normal playback operation.

Note: The picture during search forward, search reverse, and stop action may contain some noise.

Pause is designed for momentary interruptions and should not be used for an extended period of time. If the Camcorder remains in the play/pause mode for more than 5 minutes, the CLR200 will automatically go to stop mode to prevent excessive tape wear.
