

SEAT maintenance programme

General information

This maintenance programme will inform you of the work to carry out regularly on your vehicle in order to ensure the safety, reliability and durability required.

Using the "vehicle identification" data or the data contained in this document, the correct spare parts your vehicle could require in case of repairs are specified, even after many years from the initial purchase.

We recommend that you keep this maintenance programme with the vehicle documents. The inspection receipts are one of the essential requirements for exercising your rights under warranty.

The maintenance programme shows the date of delivery, and this indicates the starting date of the vehicle warranty. ■

Concepts of the SEAT service

Longlife Services or inspection services by time or mileage?

Depending on the technical characteristics of the vehicle, the Longlife Service or the inspection service is selected. If the Longlife Service is not defined, the inspection service can be selected.

Your authorised SEAT Service Centre is able to advise on the service mode suited to your vehicle and will provide information of whether there is any work required by law to be carried out on the vehicle.

Each inspection Service, as well as any additional operation required already has a pre-established work time. This will allow you to know the total cost of the service beforehand.

The authorised SEAT Service Centre network is equipped with modern workshop technology and well-trained specialists. Many SEAT Service Centres offer different service packages at special prices.

Important information relating to the service concept is given on the following pages.

The information described here is correct at the time of going to print. Modifications may be necessary for technical reasons.

Note

The cost of the SEAT inspection service may vary, depending on the vehicle type, equipment fitted, additional work and statutory tests. Your authorised SEAT Service Centre can advise you of the costs. ■

Adverse conditions

The Service Centre "service advisor" will inform you of any necessary additional work within the intervals defined by the inspection Service, according to the conditions and environment in which the vehicle is used. For example, an oil change when the vehicle is used only for frequent short journeys or is subject to extreme temperatures. Likewise, when the vehicle is used in dusty conditions, dust and pollen filter cartridges must be changed more often and the timing belt must be checked. ■
