Merchant Vessels of the United States, 1976 From 1894 95 1935 36 pt 6 of each volume is issued separately with titles 1894 95 1902 03 Code list of merchant vessels of the United States 1903 04 1935 36 Seagoing vessels of the United States **The Stuff of Spectatorship** Caetlin Benson-Allott, 2021-04-06 Film and television create worlds but they are also of a world a world that is made up of stuff to which humans attach meaning Think of the last time you watched a movie the chair you sat in the snacks you ate the people around you maybe the beer or joint you consumed to help you unwind all this stuff shaped your experience of media and its influence on you The material culture around film and television changes how we make sense of their content not to mention the very concepts of the mediums Focusing on material cultures of film and television reception *The Stuff of Spectatorship* argues that the things we share space with and consume as we consume television and film influence the meaning we gather from them This book examines the roles that six different material cultures have played in film and television culture since the 1970s including video marketing branded merchandise drugs and alcohol and even gun violence and shows how objects considered peripheral to film and television culture are in fact central to its past and future **The Oxford Handbook of Critical Concepts in Music Theory** Alexander Rehding, Steven Rings, 2019-11-19 Music Theory has a lot of ground to cover Especially in introductory classes a whole range of fundamental concepts are introduced at fast pace that can never be explored in depth or detail as other new topics become more pressing The short time we spend with them in the classroom belies the complexity and in many cases the contradictions underlying these concepts This book takes the time to tarry over these complexities probe the philosophical assumptions on which these concepts rest and shine a light on all their iridescent facets This book presents music theoretical concepts as a register of key terms progressing outwards from smallest detail to discussions of the music theoretical project on the largest scale The approaches individual authors take range from philosophical historical or analytical to systematic cognitive and critical theoretical covering the whole diverse spectrum of contemporary music theory In some cases authors explore concepts that

have not yet been widely added to the theorist's toolkit but deserve to be included in other cases concepts are expanded beyond their core repertory of application This collection does not shy away from controversy Taken in their entirety the essays underline that music theory is on the move exploring new questions new repertories and new approaches This collection is an invitation to take stock of music theory in the early twenty first century to look back and to encourage discussion about its future directions Its chapters open up a panoramic view of the contemporary music theoretical landscape with its expanding repertories and changing guiding questions and offers suggestions as to where music theory is headed in years to come
