Covert Action Magda Long,Rory Cormac,Genevieve Lester,Mark Stout,Damien Van Puyvelde,2025-11-03 A comparative international perspective challenges conventional narratives about unacknowledged intervention Covert action is generally understood as politically motivated and plausibly deniable interference by one state in the affairs of another state It includes propaganda political or economic subversion paramilitary action and assassinations Covert action is the most consequential and controversial form of secret statecraft and it has become a ubiquitous feature of international politics However it is often sensationalized or seen through a narrow US-centric lens Covert Action challenges this conventional narrative and redefines secret statecraft by offering a groundbreaking comparative international perspective that explores the practice of unacknowledged intervention across twenty countries and a range of eras Bringing together leading scholars from around the world this volume moves beyond the American and wider anglosphere perspectives to examine covert action practices across states regime types and time This book will be important reading for historians political scientists and policymakers and it provides a foundational study of the hidden mechanisms of international power It takes a global perspective and thus transforms the understanding of how nations truly interact behind the scenes revealing covert action as a complex form of

international statecraft **L'Étalon Noir 09 - Le secret de l'Étalon Noir** Walter Farley, 2015-10-21 Ce n'est pas possible
