Designing Transformative Change Bori Fehér, Janka Csernák, 2025-02-08 Design as a discipline has historically demonstrated responsiveness to societal developments and crises However amidst the multifaceted challenges of our times there is a growing discourse surrounding the potential for design to not only react but also serve as a catalyst for transformative change This discourse raises pivotal questions about the role of design in fostering hope generating realistic solutions and mitigating global and local crises Drawing upon interdisciplinary perspectives and empirical research as well as case studies the contributors to this volume critically examine the evolving role of designers in responding to

contemporary crises **Building a People-Oriented Security Community the ASEAN way** Alan Collins, 2013-05-07
 ASEAN has declared its intention to create a security community in Southeast Asia that is people orientated This book evaluates ASEAN's progress and in doing so examines three matters of concern The book firstly looks at the importance of constitutive norms to the workings of security communities by identifying ASEAN's constitutive norms and the extent to which they act as a help or hindrance in establishing a security community It then moves on to how ASEAN has interpreted people orientated as empowering civil society organisations to be community stakeholders The book discusses the uncertainty between how ASEAN envisages their role and the role they themselves expect to have Civil society actors are seeking to influence what sort of community evolves and their ability to interact with the state elite is evaluated to determine what interpretation of people orientated is likely to emerge Thirdly in order to make progress ASEAN has sought to achieve cooperation among its member states in functional areas The book examines this interest in functional cooperation through case studies on human rights HIV AIDS and disaster management By discussing the notion of ASEAN being people orientated and how it engages with the people the book provides important insights into what type of community ASEAN is building as well as furthering our understanding on security communities more broadly *Organization Change* W. Warner Burke, 2008
 The Second Edition provides an overview of the theoretical and research foundation for our current understanding of organization change including the nature and types of change organizations experience The author reviews various models including the one developed by Burke and Litwin and uses cases to demonstrate how the models can be used to diagnose change issues in organizations Emphasizing planned revolutionary change over the gradual evolutionary change organizations typically experience Burke combines and integrates theory and research with application for insight into all aspects of organization change **The Fictions of Latin American Law and their Strategic Uses** Jorge L. God from the Machine William Sims Bainbridge,2006-04-17 God from the machine deus ex machina refers to an ancient dramatic device where a god was mechanically brought onto the stage to save the hero from a difficult situation But here William Sims Bainbridge uses the term in a strikingly different way Instead of looking to a machine to deliver an already known god he asks what a computing machine and its simulations might teach us about how religion and religious beliefs come to being Bainbridge posits the virtual town of Cyburg population 44 100 Then using rules for individual and social behavior taken from the social sciences he models a complex community where residents form groups learn to trust or distrust each other and develop religious faith Bainbridge s straightforward arguments point to many more applications of computer simulation in the study of religion *God from the Machine* will serve as an important text in any class with a social scientific approach to religion

Reimagining Social Medicine from the South Abigail H. Neely,2021-07-12 In *Reimagining Social Medicine from the South* Abigail H Neely explores social medicine s possibilities and limitations at one of its most important origin sites the Pholela Community Health Centre PCHC in South Africa The PCHC s focus on medical and social factors of health yielded remarkable success And yet South Africa s systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences To understand Pholela s successes and failures Neely interrogates the social in social medicine She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela s residents and their environment played in the development and success of its program At the same time the PCHC s reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged By rewriting the story of social medicine from Pholela Neely challenges global
